Learn to compose, draw & paint like a professional artist in this intermediate/advanced class! Students develop subtle skills of blending paints, creating highlights, painting shadows, and distancing background features to make their image “pop out” effectively. Students will learn brush-stroke methods for textures, fur, feathers, flowers, tree branches, water, sky, clouds, and sunsets. From hundreds of reference pictures, you can choose to paint — a landscape, flowers, animals, or fantasy subject. This in-depth program provides drawing supplies, light box, paints, gesso, brushes, palettes, and water bins. Students must provide canvas or mural panel. **Call the Studio Art Center at 665-4686 for procuring art boards and to set a free, preliminary class time to choose a reference picture and make begin-**
