## Why should I get my carpet professionally cleaned?

Myth #2 I Have My Own Machine, I Don't Need Professional Cleaning

When you aren't sure what to do, cleaning your carpet using a purchased or rented machine is one of the worst things you can do.

Machines pump water into the carpet, but can't get the water back out. The carpet stays wet for days, leaving it vulnerable to mold, mildew, and breakdown of the backing.

IICRC Certified Technicians so you know the job gets done right!
