Why should I get my carpet professionally cleaned?

Myth #5 Deodorizing Powder is a Great Way to Keep my Carpet Fresh

One of the ingredients in powder deodorizer is talcum powder, which is not water soluble. After repeated use, this powder will become embedded in your carpet and is difficult to remove, either with a vacuum cleaner or by steam cleaning. When subjected to moisture, the powder rises to the top of the carpet, creating a white residue on the surface of your carpet.

IICRC Certified Technicians so you know the job gets done right!
