

SOUTHEAST JOB LINK OFFERINGS # HIGH SCHOOL CLASSES

EXPLORING CAREERS IN HEALTH AND HUMAN SERVICES

Exploring Careers in Health and Human Services was developed by Southeast Job Link, Inc., in partnership with the Yankton Area Mental Wellness, Inc. (YAMWI) group. The goal is to reach our youth population to educate them on mental health issues, while exposing them to the wide variety of career opportunities in our community. Through this program, participants become aware of the many issues that affect individuals in our community from infants and children, to adolescents and school-aged children, to young adults and senior adults. Students will not only get to hear about and see professionals from the community, they will research career opportunities, create journal articles, and will also have the opportunity to attend the Yankton Area Mental Wellness Conference. At this conference, students will present "poster presentations" on what they have learned through the course. They will also have the opportunity present this information to their family, friends and the community at an open house on the final day of class. This class gives students a 1/2 credit toward high school graduation (subject to school district approval). Yankton and BonHomme School Districts are approved.

DATES: May 29 – 31, 2013
and June 3-7, 2013 (1264)
LOCATION: Southeast Job Link,
1200 W. 21st St. 605-668-3480
FEE: \$50.00 plus tax

(lunch provided)
CLASS SIZE: Limited to 20 participants
AGES: Entering grades 9-12

ENERGY ADVENTURE ACADEMY

Engaging students in math, science, and technology are some of the important factors in creating tomorrow's workforce. With that in mind, Southeast Job Link, Inc. has developed a new program that seeks to provide students with information about opportunities in Renewable Energy. The **Energy Adventure Academy** is designed for students to learn while having fun. Through hands-on activities and experiments and presentations, students will discover the world of energy and also gain knowledge of career options right here in South Dakota. Yankton High School students earn 1/2 credit for the class. (Credit may be available through other area schools with school district approval.).

DATES: July 22 – 25, 2013 (1265)
LOCATION: Southeast Job Link,
1200 W. 21st St. 605-668-3480
FEE: \$75.00 plus tax
TIME: 9:00 AM to 2:00 PM
(bring sack lunch)
CLASS SIZE: Limited to 10 participants
AGES: Students entering
9th to 12th grades

SURVIVOR HIGH SCHOOL 2013

Survivor High School is a program designed to help students with the transition from Middle School to High School this fall. Southeast Job Link, Inc. developed this program to prepare students with the knowledge and tools to achieve their goals and give them a head start to future success. As students begin High School, they face many new challenges. This course will provide tips for time management and organization, stress management, study skills, communication skills and peer relations. Participants will also address managing school with employment along with individual goals, long-term planning and "money smarts." Now get ahead more than ever with 1/2 a credit toward your Yankton High School Diploma! (Credit may be available through other area schools with school district approval.)

DATES: July 29 – August 1, 2013
(5 more Saturday sessions TBA)
LOCATION: Southeast Job Link,
1200 W. 21st St. 605-668-3480

1:00 PM-4:00 PM (1267)
(Choose 1 session – AM or PM)
CLASS SIZE: Limited to 10 participants
AGES: Entering 9th grade

ELEMENTARY AND MIDDLE SCHOOL CAMPS

ENERGY ADVENTURE DAY CAMP

Energy Adventure Day Camp provides comprehensive, objective information and activities on the energy sources that fuel our country, including economic and environmental impacts. Students explore the history of energy, energy in current events, and consider future energy development opportunities and challenges. They will discover that certain energy sources may be better choices for specific energy needs, and will discuss and debate the energy sources we use today and will use in the future. This camp teaches about all energy sources in order to help students understand that there are many things to consider when making decisions about resource use.
