Harrison Ford stars as baseball executive Branch Rickey in "42," which chronicles Jackie Robinson's historic entry into the all-white world of Major League Baseball.

## Ford Branches Out To Baseball In '42'

BY ROBERT TRUSSELL

© 2013, The Kansas City Star

KANSAS CITY, Mo. — Harrison Ford has plenty of experience playing fictional icons — Indiana Jones, Han Solo in "Star Wars" but not so much when it comes to flesh-and-blood historical figures. In the new film "42." however.

In the new film "42," however, Ford and co-star Chadwick Boseman play real people who did, in fact, become cultural icons for a very good reason — they changed the country.

Boseman plays Jackie Robinson, the complicated ballplayer who made history when he became the first African American to play in Major League Baseball. And Ford plays Branch Rickey, the general manager of the Brooklyn Dodgers who plucked Robinson from the Kansas City Monarchs, one of the stalwart teams of the Negro Leagues.

"42" depicts a post-World War II world that really wasn't all that long ago. But in terms of the blatant racist verbal abuse and physical threats Robinson had to contend with, it shows us just how different we are as a country today.

Bob Kendrick, president of the Negro Leagues Baseball Museum in Kansas City, said the time was right for a new film about Robinson. Current tastes allow for racial attitudes to be depicted in a frank fashion that wasn't acceptable in Hollywood movies of 1950, when Robinson played himself in "The Jackie Robinson Story."

"I think the new film would probably cast a greater light on just how challenged and courageous Jackie Robinson really was," Kendrick said, comparing "42" to that earlier movie. "This will bring what he accomplished to a whole new level in comparison. It is an important film. But it's a really good film. So that's exciting, too."

The title, "42," refers to Robinson's number on the Dodgers, the only retired number in Major League Baseball.

Robinson just wanted to play baseball. And he wanted to win. But by signing with Rickey he volunteered to endure torrents of racist verbal abuse as well as physical threats without fighting back. His job was to play, to win—and to stay cool. He was leading the way for other black players, and he had to be a role model. The film depicts how Robinson and Rickey worked together to make that a reality.

Ford said he really didn't know much about baseball when he agreed to play Rickey — a part he had to lobby for — but he knew a great role when he saw one on paper.

"No, I wasn't a baseball player, and I don't really know much about baseball, to tell you the truth," Ford said by phone this week. "I learned, but I was never much of a sports fan."

Ford knew he could play the gruff, cigar-chewing, church-going Rickey. He employed extra padding and prosthetics to transform his appearance, although Ford's trademark crooked smile is still there. But he had to convince writer / director Brian Helgeland that he was the right actor for the part.

"Somebody told me there was a real good script around, and I got hold of the script," Ford said. "The director was not anxious to see me because I hadn't been playing character parts lately, and I don't blame him at all. ... I think Brian was afraid if Harrison Ford showed up in his movie, it would unhinge the whole process. And by that, I mean the recognizable Harrison
