ReSound

## The hearing device that brings you closer to natural hearing

Actual size

### ReSound Alera™ Key Features\*

- Like natural hearing, Surround Sound™ by ReSound™ provides unrivalled sound processing
- Focus on conversation in noisy settings, yet maintain awareness of your surroundings, with Natural Directionality™ II
- DFS Ultra™ with WhistleControl™ prevents buzzing or whistling (system feedback) when on the phone or hugging someone
- iSolate™ nanotech and Gore® membranes resists corrosion caused by rain, humidity and perspiration
- Enjoy easy-to-use 2.4 GHz wireless connectivity to ReSound Unite™ accessories for the TV, mobile phone and remote control

\*Varies by model

## Take this simple test

Do you...

- |  |   |
|--|---|
| <input type="checkbox"/> Have difficulty in understanding what is being said, unless you are directly facing the speaker?  | <input type="checkbox"/> Avoid group meetings, social occasions, public facilities, or family gatherings where listening may be difficult?  |
| <input type="checkbox"/> Find yourself complaining that people are mumbling or slurring their words?                       | <input type="checkbox"/> Have trouble hearing at the movies, house of worship, concert halls, or at other public gatherings – especially where sound sources are at a distance?   |
| <input type="checkbox"/> Continually ask people to repeat words or phrases, though they feel they're speaking loud enough? | <input type="checkbox"/> Have ringing in the ears or other head noises? (hissing, buzzing, crickets, etc). Tinnitus often accompanies hearing loss, but not always, and as such, may be the ears' way of saying "ouch!" |
| <input type="checkbox"/> Prefer the TV or radio louder than others do?   |   |
| <input type="checkbox"/> Have difficulty understanding conversation within a group of people?                              |   |

If you checked at least two of these questions, you may have a hearing loss and need to have your hearing tested. Call us today.
