Yankton School District Clarifies Gift Acceptance Policy

BY SHAUNA MARLETTE
 shauna.marlette@yankton.net

During the Monday night meeting of the Yankton School Board, board member Jay Williams raised a question about the school district's ability to accept a gift to fund middle school activities.

The ability to accept the gift is based on the following board policy:

(The full policy handbook is available at <http://tinyurl.com/y5dmanual>).

CC. GIFTS/DONATIONS AND SPONSORSHIP

The guidelines outlined in this policy will govern the acceptance of all gifts or donations to Yankton School District 63-3 schools, departments and/or programs.

- Definitions:
 - Gifts/Donations — the transfer, or giving, of something without any expectation of a return.
 - Sponsorship — the giving of something with the expectation of a return.
- To be acceptable, a gift/donation/sponsorship must satisfy the following criteria:
 - will have a purpose consistent with those of the school
 - will not initiate a program which the School Board would be unwilling to assume when gift funds are exhausted
 - will not result in undesirable or hidden costs to the school system
 - will place no restrictions on the school program
 - will not commit the District to endorse any business or product
 - will not be in conflict with any provision of the school code or public law
 - will meet the District's construction standards when altering/modifying buildings or grounds.

Any gift or donation that does not meet the above criteria or has a value in excess of \$10,000 requires school board approval. All sponsorships require school board approval.

Adopted November 8, 1999, Action #2000-194

Williams questioned if the board could accept the gift based on section CC-2-b and CC-2-c.

Board members Chris Specht said he did feel the board is following its policy because there is no assumption by the community that the programs will be extended more than one year based on the donations. Furthermore, he said, the board during the next budgeting cycle will be able to continue or cut the programs based on the financial situation of the district.

At Williams' request school district attorney Michael Marlow was consulted on his interpretation of the policy. He replied that the statement, "any gift or donation that does not meet the above criteria or has a value in excess of \$10,000 requires school board approval," allows the district to accept the donations.

Williams' inquired for clarification that there are no hidden costs or fees attached to the gift. Business manager Jason Bietz explained the amounts raised were based on last year's participation and cost numbers, and there are no expectations of additional hidden costs or fees associated with the reinstatement of the programs.

Following all discussion, the board voted unanimously to accept both the \$85,000 donation to reinstate seven seventh and eighth grade activities. A \$33,000 donation from Larry and Diane Ness and First Dakota National Bank to reinstate fifth and sixth grade boys and girls basketball and track, was also accepted.

Scotland Biker Injured in Black Hills Accident

From P&D Staff Reports

A Scotland motorcyclist has sustained serious non-life threatening injuries in a Black Hills accident, according to the South Dakota Highway Patrol.

Kellyn Neth, age 21, was traveling Monday on Nemo Road near Dude Wrangler Road in Lawrence County. Neth was unable to negotiate a curve in the roadway, laid the motorcycle down, and the motorcycle slid into a guardrail.

Neth was wearing a helmet and was transported to the hospital in Deadwood. No charges were filed in the crash.

The Highway Patrol compiles the accident reports and other data as part of its Sturgis Rally daily information. With 40 injury accidents so far, the district has already surpassed last year's number of 28.

24 Added To Fresh Fruit, Vegetable Program

PIERRE — The Fresh Fruit and Vegetable Program, or FFVP, will expand to include an additional 24 South Dakota schools for the 2011-12 school year. That means a total of 101 schools will participate in the program this year, giving more than 23,000 elementary students the opportunity to eat fresh fruits and vegetables throughout the school day.

"These schools are taking positive steps to help students develop life-long healthy eating habits," said Sandra Kangas, director of the South Dakota Department of Education's Child and Adult Nutrition Services. "The children have an opportunity for a healthy snack and oftentimes also learn about where fruits and vegetables come from, how they are grown, and what nutrients are in them."

The FFVP is administered by the United States Department of Agriculture Food and Nutrition Services and South Dakota's Department of Education — Child and Adult Nutrition Services.

Schools that participate in FFVP receive funds to provide free fresh fruit and vegetables to elementary students throughout the school day. The snack must be served outside of the breakfast or lunch meal. Elementary schools that have a high percentage of their students eligible for free or reduced-price meals receive priority for the funding.

- Area schools participating in the program are:
 (* indicates new to the program this year.)
 Bon Homme School District: Springfield Grades K-5*, Tyndall Grades PK-5*, Hutterische Colony Grades K-8*
 Gayville-Volin School District, Gayville: Grades EC-5
