# Extension

From Page 1

the state's economy, health care, business and even churches, he said.

"Our neighbors in Minnesota and Iowa had already moved to regional centers. The system works and has been in place in other states for a number of years," he said. "Yankton is a little bit unique (as a larger community without a regional center). I wish we had more of these centers, but we just don't have the funds right now."

Besides financial issues, the change to regional centers has been driven by demographics — an aging population and a shift of residents from farms to larger communities — as well as a greater use of technology, Dunn said.

"We have a web platform called iGrow, and we encourage people to use it," he said. "We refresh that information constantly to meet the challenges that producers are faced with now, such as how to handle drought-stressed corn."

Pointing to the importance of research, Dunn noted the success of the recent farm tours and field day at the Southeast research station near Beresford.

"Some years, they had fewer

than 50 farmers show up, and this year they had about 100," he said. "People want us to succeed. There is something about the character and support that we receive for Extension. These experiment stations need to be the heartbeat of agriculture."

Dunn also pointed to the joint programming efforts of the Extension regional centers and technical institutes in Mitchell and Watertown. SDSU has also been teaming up with other states, including the University of Nebraska for an upcoming drought meeting in Yankton.

"It helps leverage our state resources as best we can," he said. "It's a great success story, and I can't say enough how proud I am of our state."

SDSU Extension associate director Karla Trautman told the *Press & Dakotan* this week that the past year has provided an important time for building new relationships both locally and around the state.

"I think people were most concerned about 4-H and how to carry it out. How would we do that in fiscally responsible ways?" she said. "I think, one year later, we have the local 4-H advisors in place, and they are building relationships not only with the kids and 4-H leaders. From the county commissioners' standpoint, they are able to have a person they can visit with and talk to. It's been extremely helpful."

Challenges remain, particularly in building multi-county relationships, Trautman said. However, the 4-H advisors have built a strong local presence, she said.

As part of its reorganization, Extension has used technology to conduct a statewide drought meeting and to receive email photos of crops and other exhibits from county offices for digital analysis, Trautman said.

Technology has also allowed Extension to quickly present information and to create programs desired by the public, Trautman said.

"We aren't leaving behind our audience that we have served for years," she said. "It's really just a shift in thinking about topics and the way of delivering that information. Schools are finding the same thing, that people don't learn in the same way as in the past."

Fosheim has taken the same approach, combining both the old and the new.

"We are making more use of social media for reaching the public. There are tremendous untapped resources," she said. "And we aren't working with just the traditional homemakers that you saw years ago. Now we have more diversity. We had a man attend our cake decorating class. We are no longer expecting traditional results in a non-traditional world."

Dunn expects to have a much greater perspective on the

Extension changes in the coming months.

"Around October, through our first anniversary, we will have a good benchmark of how much of that we saw and what will be the trends in the future. It's so dynamic," he said. "We just had the livestock show in Huron last week-end, and there was tremendous enrollment. We will watch to see if other things go the same way."

South Dakotans are taking the changes in stride, Dunn said.

"I think the main barometer of our success of how we are able to rebuild the trust with SDSU and Extension," he said. "I am very excited and positive about it. I know it was very difficult to make the transition, but there is tremendous potential."

The Extension service is poised for an exciting future, Dunn said.

"Things have been changing, and it's a good thing. People say that agriculture is a growth industry, and I think young people are getting it. We are seeing record enrollment in agriculture programs," he said.

"The challenge lies with feeding 10 billion people with less land, water and energy. But it's also a great opportunity. This will produce the golden age of agriculture. We in Extension can be extremely proud to be able to contribute toward it."

## East Eighth Street To Be Closed For Repairs

East Eighth St. from Douglas Avenue to Burleigh Street in Yankton will be closed to all traffic for two days beginning today (Thursday). Alternate routes will need to be used while streets are being paved. Streets will need to be cleared of all vehicles when the no parking signs are placed along these streets.

## Orphan Grain Train To Assist Neb. Firefighters

NORFOLK, Neb. — In response to the prairie fires in North Central Nebraska, Orphan Grain Train has partnered with Affiliated Foods retailers, vendors, and employees, Nucor Steel Bar Mill, and John Deere Manufacturing of Ottumwa, Iowa, to assist the firefighters and others in the fire-effected area. This week, donated water, Gatorade, food, fire-fighting equipment and even Visine eye drops have been taken to the fire zone by the humanitarian organization. Eager to provide support to the area, president of the organization, Pastor Ray Wilke, hauled the first trailer-load of relief supplies to Springfield, Monday morning.

Three semi-loads of hay have been donated, and are standing by to be hauled in for the hungry livestock that remain in the area. This will occur as soon as transportation can be arranged.

Monetary donations to assist with this relief effort should be marked domestic disaster, and made payable to Orphan Grain Train. Mail to: PO Box 1466, Norfolk, NE 68702-1466. Donations are also accepted online at [www.ogt.org](http://www.ogt.org). Under gift information, choose Domestic Disaster Fund. More information is available at the web address above, and on our Facebook page, Orphan Grain Train, Inc.

## Organic Certification Cost-Share Program Set

PIERRE — Organic agriculture producers and processors in South Dakota may be eligible to receive up to 75 percent reimbursement for their organic certification costs.

"The annual cost of certification is a major expense for both new and established organic producers," said Ty Eschenbaum, value-added marketing specialist with the South Dakota Department of Agriculture (SDDA).

To help minimize organic certification costs, SDDA is offering a 75 percent cost-share reimbursement program. Any organic producer or handler may receive up to \$750 per qualified scope per year.

Reimbursement applications and supporting documents must be sent to SDDA for eligible certification or re-certification expenses incurred after Oct. 1, 2011, and before Sept. 30, 2012. All applications will be reviewed and processed on a first-come, first-served basis. The deadline for submissions is Nov. 15, 2012.

Program guidelines and applications are available online at [www.sdda.sd.gov/AgDevelopment](http://www.sdda.sd.gov/AgDevelopment) or will be sent upon request.

Funding for the program is provided through a cooperative agreement between SDDA and the Agricultural Marketing Service branch of the U.S. Department of Agriculture.

For more information or to receive an application form, contact SDDA at 605-773-5146 or email [ty.eschenbaum@state.sd.us](mailto:ty.eschenbaum@state.sd.us).

DAILY RECORD

POUND COUNT

Several animals are available at the Yankton Animal Shelter. For more information call the Yankton Police Department's Animal Control Officer, from 8 a.m.-4 p.m. Monday-Friday at 661-9494, or 668-5210. A \$5 fee is required to adopt an animal.

DAILY RECORD POLICY

The *Press & Dakotan* publishes police and sheriff reports as a public service to its readers. It is important to remember that an arrest should not imply guilt and that every person is presumed innocent until proven otherwise. When juveniles are released from jail, it is into the care of a parent or guardian.

ARRESTS

- Dean Zepher, 50, Yankton, was arrested Tuesday on a warrant for simple assault (domestic).
- Myron Rainbow Sr., 45, Yankton, was arrested Tuesday on a parole hold and for first-degree escape.
- A 16-year-old Yankton female was arrested Tuesday as a runaway and on a warrant for failure to appear.

ACCIDENTS

- A report was received at 10:48 a.m. Wednesday of an accident in the 400 block of Spruce St.

INCIDENTS

- A report was received at 2:49 p.m.

ON THIS DATE

75 YEARS AGO

**Monday, August 2, 1937**

- The state livestock sanitary board today quarantined seven southeastern South Dakota counties to prevent the spread of anthrax which is killing large numbers of cattle in the area.
- Dr. Ben Anderson, board secretary, said the regulation prohibits the movement of all livestock into and out of Davison, Douglas, Clay, Hutchinson, Charles Mix, Bon Homme and Yankton counties.
- Dr. G. S. Adams, superintendent of the state hospital, has received notification from the WPA offices that bids on the proposed new women's building at the hospital, which were scheduled to be opened on Wednesday of this week, will not be opened at that time and that the awarding of the contract has been indefinitely postponed.

50 YEARS AGO

**Thursday, August 2, 1962**

- There were 470,255 persons who visited Gavins Point dam and Lewis and Clark lake recreation areas during July, it was estimated by the U. S. Army Corps of Engineers on the basis of traffic counters and average numbers of persons per car entering various types of are.
- Five Yankton youths have admitted taking part, all or in combinations of two or three, in some 30 or more different thefts and break-ins over a three county area during more than two months, according to Chief of Police Monty Hauck.

25 YEARS AGO

PSAHL-KOSTEL

FUNERAL HOME & CREMATORY INC.

Guiding and serving families with compassion and trust.

We chose Opsahl-Kostel for various reasons. We'd attended other funeral services of friends and family that were provided by Opsahl-Kostel and were impressed with how they handled the arrangements. They also came highly recommended by friends.

When my mother passed away, the funeral service was 130 miles away. Opsahl-Kostel took care of EVERY little detail, from the time of her death to after the services were done. Not having to worry about all these little details really helped put my family at ease.

Kevin and Tami were very professional and caring. They made us feel like an extended part of their family. They made sure we were involved in every aspect of the arrangements. Several comments were made about how peaceful she looked... like an angel sleeping. Thank you Tami!

Although thank you doesn't seem like enough and no words can describe how grateful we are to the Opsahl-Kostel Funeral home and their staff. We would most definitely recommend them to others. They helped us through a very hard time as we laid our loved one to rest.
