# **Short Seller' Is A Winner**

"The Short Seller" by Elissa Brent Weissman, Atheneum Books for Young Readers (Simon & Schuster), 2013. 256

#### BY PAT HANSEN

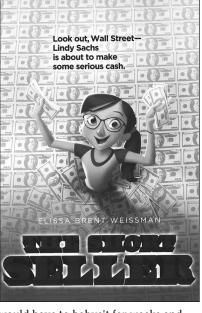

Just imagine-weeks off from school when everyone else has to go to school! Wouldn't that be great? Sleeping in, lounging around in your pi's all day, watching TV....

Twelve-year-old Lindy Sachs gets this dream come true. Along with it, or actually as the cause of her extended vacation, she has mono. Sore throat, tired, sick and nothing that can be done for it but to get lots of rest and stay away from school.

It's great for about two days. Then Lindy starts getting bored. Seriously bored. It's hard to force herself to work on the homework that her two best friends bring her. Math is especially tough for her.

When her dad gives her the password to his stock trading website, she doesn't think much of it. Her dad's coworker has a hot stock tip, but her dad isn't allowed to access the website from work. So he shows Lindy how to buy a stock, then he calls her from work with the stock's ticker. A few days later Lindy and her dad log on again, to discover he's made several hundred dol-

Lindy may not be good at math, but she can quickly calculate that she

would have to babysit for weeks and weeks to earn several hundred dollars. This is amazing!

Hoping to help Lindy find something to do all day, her dad puts \$100 into a trading account for her. She's free to buy and sell whatever stocks she wishes. Lindy starts small, with just a fraction of the hundred dollars. At the end of the day, she's made \$17. Lindy's

Before long, though, she's missed so much school that her parents decide to

get her a math tutor. The math tutor is good, but Lindy still struggles, especially with graphs. Then he tells her he used to be a stock broker. He shows her how graphs give all kinds of information in the stock world. Suddenly the graphs make sense to Lindy. She spends all day studying the graphs of different stocks to buy and sell. She's on a roll, doubling her money.

It's frustrating to have so little money to work with when there are so many great stocks just waiting to be bought and sold. And she's a real natural at this stock-trading. Then Lindy accidentally gets onto her dad's account. Lindy is astounded at how much money they have — they're rich, yet they won't even let her have a cell phone or go to a concert. She's too young, they

Well, maybe it's time to show them just how grown-up she really is and do some adult-like stock trading with some of that huge amount of money they have. Soon Lindy's trading earns a lot of money for their account. Until the stock market plummets.

This is an entertaining book with plenty of suspense and worry to keep you reading. You'll enjoy watching Lindy grow from an unsure girl to a young woman who has to deal with very adult problems. For ages 10 and up, young and old may even learn a little about the good and bad of day-trading. Reading this book would be a definite gain; no losses here.

## **Rare Instruments Loaned For Exhibit**

VERMILLION — An exhibition of seven rare musical instruments from the National Music Museum, which is located on the University of South Dakota campus, will be featured in coniunction with the Seattle Opera's production of Richard Wagner's "Ring Cycle," which runs through Aug. 25 at McCaw Hall in Seattle.

This renowned series of four operas, a 16-hour telling of the Norse saga the "Der Ring des Nibelungen" ("The Ring of Nibelung"), is Wagner's story of the end of the world and the dawn of a new one. As international audiences flock to Seattle to witness this epic production for the 38th consecutive year, the production will include the National Music Museum exhibit, "Wagner, Verdi, and the Search for Orchestral Color," celebrating the bicentennial anniversaries of both Richard Wagner (1813-1883) and Giuseppe Verdi (1813-1901). According to Cleveland Johnson, director of the National Music Museum, Verdi and Wagner guided instrument builders in devising new musical instruments to reflect the sounds of their imaginations.

"Few of these instruments found a permanent place in the orchestras of today," Johnson said. "They are, however, witnesses to the fact that the human search for innovative new sounds is not unique to our own time."

The centerpiece of the exhibit is an early "Wagner tuba," built in Berlin around 1877. The instrument came to the National Music Museum badly damaged and, prior to last year, was in storage at the National Music Museum. Ana Silva, a Portuguese student in the master's degree program for the history of musical instruments, restored the instrument for her thesis project. The

tour of the facility. The National Music Museum is located on the campus of USD at 414 East Clark Street and is open Monday through Saturday from 9 a.m.-5 p.m., and Sundays from 2-5 p.m. The NMM's summer schedule includes extended evening hours until 8 p.m. on Thursdays and Fridays.

## S. Dakota-Made Wine, Beer, Cheese Featured At State Fair

HURON — The South Dakota Wine Pavilion at the State Fair is becoming a tradition for some fairgoers.

This is the only venue in the state where people have the opportunity to taste samples from 11 of South Dakota's wineries, several of the state's breweries and eight cheese manufacturing plants in South Dakota.

The South Dakota Department of Agriculture (SDDA) and the winegrowers in South Dakota are working together to host this popular attraction at the Fair. Fairgoers can taste and purchase South Dakota wines, beer, cheese and other specialty food items, visit with these value-added businesses about their operations and learn more about the state's growing industries. Participants will be able to pair the wine and beers with South Dakota cheese and other food products as well.

Tasting packages with more than 30 varieties of South Dakota wine and handcrafted beers are available to purchase as well as beverages by the glass to enjoy in the

wine garden. Wine-a-ritas, a refreshing blend of wine and margarita mix, will also be available.

This year the South Dakota Wine Pavilion will have many specials and features including a \$5 savings on Border to Border wine tasting packages Thursday only, happy hour specials Thursday and Friday, and 25 percent off select cases on Monday.

"We work hard to create a very pleasant atmosphere for fairgoers to enjoy our state's great wine, beer, cheese and specialty foods," said Alison Kiesz, event organizer for SDDA. "We want consumers to learn more about agriculture and the industries represented in the pavilion."

The 2013 State Fair runs Thursday, Aug. 29-Monday, Sept. 2. Preview day is Wednesday, Aug. 28. For more information on State Fair events, contact the Fair office at 800.529.0900 or visit www.sdstatefair.com/. You can also find the State Fair on Facebook and Twitter (@SD-StateFair).
