Press&Dakotan DAILY DOSE

Daily opinions from the P&D **Sports Staff on** local and national high school, college and pro sports.

BY NICK ROBINSON

sports@yankton.net

I will be covering the Yankton Bucks football team this fall for the Yankton Daily Press and Dakotan. This is something I have set as a goal ever since I started working here, around three years ago. It's surreal to think how far I have come as a writer and person since then, but also how much farther

There is something about finally getting to a goal, after countless hours of game calls, and some of the less "attractive" duties we have in the sports department at the *Press and Dakotan*. And now, that I know I have a great opportunity to shine, to stay focused and do nothing but my best

I know I will be pushed at times, like I have been in numerous different occasions working here. But, it's part of the grind and shine, as they say. There is no better feeling in my book, that cranking out a story right before the deadline.

Robinson Excited To Handle Bucks Football Coverage

Ever since I was a little kid, I idolized Buck football players. I don't think I ever missed a home game from elementary school all the way to my senior year of high school. I always looked forward to waking up on a Friday, realizing I was either watching people I looked up to, or my friends, tear it up at Crane Youngworth Field under the lights.

There's tradition with this program, and expectations each year, and I feel I truly understand those. In order to have a grip of what you're doing, whether it's covering a high school football team, a pro basketball team, or even working in a hospital, you have understand the backbone and know expecta-

With my experience as a writer, and being from Yankton and watching this program since I could walk, I feel I will excel. Like the Bucks, who go into every season with the intention of ending up at the DakotaDome hoisting a trophy. I will look to push myself and use this experience for the future.

I can't wait for this season and what it has to hold, through the ups and down, it should be a great
