## Downtown 'Fish Night' Arts Event Sept. 2

Yankton RiverWalk is joining with Yankton Area Arts and First Dakota National Bank to host a night of art exploration in downtown Yankton Wednesday, Sept. 2, from 5-7 p.m.

The former Goetz law office at 311 W 3rd Street is slated for demolition in October, and First Dakota National Bank has offered the building as a canvas for fun art in the meantime.

The building has been painted blue, and mural artist Mickey Harris of Menno has painted waves and fish outlines. Kids (and adults) can choose a fish and paint it any way they like. All supplies will be provided. Remember to dress in your painting clothes.

Also, RiverWalk committee members will be stationed at each of the sculptures on Third Street to discuss the artist and intent behind each piece. The first 50 children to visit the sculptures will receive an art-themed goodie bag. Pick up a RiverWalk brochure with the RiverWalk map at the Goetz building.

All events are free of charge.

For more information, contact Katie Hunhoff at (605) 660-5989

## Hospital to Host Dedication, Blessing

TYNDALL — St. Michael's Hospital Avera will host a dedication ceremony and blessing Wednesday, Sept. 2, for a new patient wing addition that includes 12 patient rooms, a family support/hospice room, urgent care and infusion therapy, as well as a new chapel, nurses' station and hospital pharmacy. This will be open to the public.

A program will be held in the facility at 5 p.m. and will include remarks and a blessing from Sioux Falls Diocese Bishop Paul Swain. The open house with tours will commence immediately afterward and will proceed until 7 p.m.

"This project was made possible by the generous support of our communities and staff who truly embraced our capital campaign that encouraged 'investing in care today ... growing a healthier tomorrow,'" said Carol Deurmier, CEO of St. Michael's Hospital Avera. "We are so grateful to all who gave to a cause that will impact lives for years to come."

Construction of the 7,000-square-foot, \$2 million project got under way in July 2014 and was completed in the summer of 2015.

## Highway

**From Page 1**

Hutchinson and Yankton counties have all signed.

Kloucek said he believes keeping four lanes is a safety measure, especially because farm equipment travels down the road frequently, and having the extra lane allows vehicles to pass. He said the state hasn't shown any proof the change would save money in the long-term.

"I just think it's a huge waste of taxpayers' money," he said. "I think we can have safer roads and intersections without tearing up the road that's already there."

Earlier this month, an open house was held in

Tyndall to brief the public on the proposed changes. South Dakota Department of Transportation Planning Engineer Mark Malone said the emphasis of the project is safety, and that the stretches of road don't have enough traffic to warrant keeping them as four-lane segments.

"Basically, we have four lanes now, and they're not needed," Malone said. "There's segments that are way under capacity for being able to maintain those segments, and it's just not cost effective for taxpayers."

Changing the segments from four lanes down to three will cost \$8.3 million, according to Malone. Another 13 miles of resurfacing work would bring the grand total to \$14.1 million.

The project remains in

the developmental stage of the Statewide Transportation Improvement Plan, meaning it would be worked on in 2020 or beyond.

Kloucek said he hopes the outreach by locals will make an impact with the Department of Transportation when considering the future of the road, which he said has been this way for 55 years.

"They've got their hearts in the right place, but it has to make sense for the people locally," he said. "And this is just not something people want to see."
