ATDA

AMERICAN TRUCK DRIVING ACADEMY

We have so many options for you!

ATDA has expanded its program to include those individuals who already have completed the written CDL tests or plan to and only need to learn the basic skills testing components and pre-trip inspection.

- * The yard training, walk around, and driving portion and if needed the written test portion, would be taught by the hour
- * The cost would be determined by the needs of the student
- * We furnish the training tractor and trailer until the CDL license has been achieved
- * This is an opportunity for businesses that do not use their truck and driver at all times and have a need for the driver to have a CDL license. If you are in this situation, give us a call. **We will work with you!**
- * Many of our graduates, men and women, have chosen to team with a friend or spouse in their new career!
