Elizabeth & Luke DeRoos
Nick & Erin DeRoos

Geoffrey & Alexzandra Nelson
Dr. Daniel & Heather Nelson
Grandparents: John & Joan Nelson

Quality Dental Care for Kids

The American Academy of Pediatric Dentistry recommends your child visit a dentist when the first tooth comes in, usually between 6 and 12 months of age. Early examination and preventive care will protect your child's smile now and in the future. Children with healthy teeth chew food easily and smile with confidence. Start your child now on a lifetime of good dental habits.

Call Scott Family Dentistry today to help keep your baby's teeth beautiful!
