## Avera To Host Kidney Disease Workshop

Avera Education & Staffing Solutions is hosting "Chronic Kidney Disease Update 2011," a workshop for health care professionals with an interest in CKD to hear about the newest trends in the management of patients with CKD. This daylong workshop is being held on Thursday, Feb. 17, in the Professional Office Pavilion and Education Center on the Avera Campus in Yankton. It runs from 7:30 a.m.-5 p.m.

Pre-registration is required and open to all healthcare staff, dieticians, dialysis technicians, social workers, pastoral care providers, medical students and nursing students located throughout the Midwest.

According to Center for Disease Control and Prevention reports, kidney disease is common among adults in the United States. CKD is the ninth leading cause of death in the United States. An estimated 100,000 persons are diagnosed annually with chronic kidney failure, and more than 10 percent or 20 million adults have chronic kidney disease (CKD). Leading risk factors for the development of CKD include diabetes, hypertension, cardiovascular disease, obesity, elevated cholesterol, and a family history of CKD. More than 35 percent of people aged 20 or older with diabetes have CKD while 20 percent of people ages 20 years or older with hypertension have CKD.

Keynote speakers for the event are JoEllen Koerner, PhD, RN, FAAN and her daughter, Kristi Welch. Koerner is an author, editor, speaker, researcher, educator and nurse executive well known for her efforts to foster high standards in nursing; and Welch has more than 10 years of executive-level experience in project management and currently serves as president of NurseMetrix and vice president of Client Services for interactiveTHINK, inc.

Koerner and Welch will present the "The Paradox of Illness" that examines the Essence of Healing and the Essence of Nursing - the Power of the Profession. They will explore the various aspects of an illness event and the contributions of caregivers from western and indigenous healing cultures. The deeper power of healing will be explored, reminding us that caring, compassion and authentic presence can make a dramatic difference to anyone with a healthcare challenge.

Other topics include: "Maintaining Quality in a Bundled Environment" discussing the impact of the new reimbursement system on patient care as well as the newly approved quality incentive program presented by Jan Deane with Renal Network of the Upper Midwest; "ESRD Survey Process Update" presented by Patricia Brinkley with the South Dakota Dept of Health; and, a social worker update co-presented by Ashley Ramstad with Avera Sacred Heart Hospital and Barb Mechtenburg, Director of Social Services at South Dakota Human Services Center. The conference will conclude with a patient and care giver panel discussion.
