DAILY RECORD

POUND COUNT

Several animals are available at the Yankton Animal Shelter. For more information call the Yankton Police Department's Animal Control Officer, from 8 a.m.-4 p.m. Monday-Friday at 661-9494, or 668-5210. A \$5 fee is required to adopt an animal. Animals can be viewed on the Humane Society Web site at www.heartland-humaneociety.net.

DAILY RECORD POLICY

The Press and Dakotan publishes police and sheriff reports as a public service to its readers. It is important to remember that an arrest should not imply guilt and that every person is presumed innocent until proven otherwise. When juveniles are released from jail, it is into the care of a parent or guardian. It is the policy of the Press and Dakotan to publish all names made available in the police and court reports. There are no exceptions.

50 YEARS AGO

Thursday, June 2, 1960
 Western leaders now look for a stalemate on major issues between the Soviet Union and the Western powers for the next six to 12 months. During this time there may be periodic crises brought on by Soviet or Red Chinese efforts to probe for weakness among the Allies and throw them off balance.
 U.S. Secretary Of Defense Thomas S. Gates Jr. said today he called a military alert from Paris after he became aware Soviet Premier Nikita Khrushchev intended to wreck the conference.

KNOWLEDGE IS PREVENTION

Colon Cancer Awareness

Some Important Facts You Should Know About Colorectal Cancer!

- Colorectal cancer is the second leading cancer killer in the United States after lung cancer.
- More than one-third of colorectal cancer deaths could be avoided if people over 50 had regular screening tests.
- Most colorectal cancers begin as polyps. (Polyps are growths on the inner wall of the colon or rectum.)
- People who have polyps or colorectal cancer do not always have symptoms.
- Screening tests are so important because they can find colorectal cancer early, when treatment works best.
- When colorectal cancer is detected in the earliest stage of the disease (Stage 1), the survival rate is greater than 90 percent.
- Colorectal cancer is one of the most preventable cancers. Screening tests can help prevent colorectal cancer by finding pre-cancerous polyps so they can be removed before they turn into cancer.
- Risk increases as we age. The risk of developing colorectal cancer increases with age. In fact, most cases (92%) occur in people 50 and older.
- Both men and women are at risk.

Dr. Lisa Miller will discuss colon cancer screenings and treatment.
