

1335 Other Employment

Chief Design Engineer
Applicant should possess strong background in Mechanical/Structural Engineering. The successful candidate must have BSME or BSCE with emphasis in Structural Design and a minimum of 10 years of engineering experience with at least 5 years in a management role. The position will be responsible for hands-on leadership in a multi-project organization engaged in crusher manufacturing, steel fabrication and all related processes for mining minerals, aggregates and other bulk material reserves.

The Chief Design Engineer will report directly to the President and be expected to perform as a key member of a dynamic management team. Responsibilities will include all aspects of the company's R&D activities and product development. This will include organization and operation of the entire engineering function as a cohesive unit, conceptualization and management of simultaneous projects, delivering feasible designs to agreed specifications within time and budget constraints and fostering innovative solutions to satisfy customer needs. Utilization of company standard product line equipment is required.

Job Requirements
Minimum BSME or BSCE
10 plus years of work in mechanical engineering with 5 years of management experience. Proven Track record of successful management of diverse, simultaneous projects. Successful completion of projects within budget and schedule. Demonstrated design skill for wider application needs. Travel requirements to suit customer needs. Good communication skills, oral and written. Excellent design skills utilizing AutoCAD. Familiarity/Experience with Inventor Program Software.

Compensation commensurate with experience

Yesterday's answer

AXYDLBAAXR
is LONGFELLOW

One letter stands for another. In this sample, A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
