them turning more to kidnapping as a way of keeping the money coming in."

Experts from the CIA's National Counterterrorism Center, the Treasury Department and the FBI and military are trying to learn more from the recovered files about al-Qaida's money sources and the impact of bin Laden's death on the group's financial future. They hope to identify important al-Qaida donors, especially wealthy Persian Gulf figures who dealt with bin Laden dating to his work with Afghan fighters in the campaign against Soviet occupiers

in the late 1980s.

The Treasury Department's acting undersecretary for terrorism and financial intelligence, David Cohen, said U.S. efforts are focused on disrupting al-Qaida's cash flow from donors, fundraisers and facilitators. "Al-Qaida's supporters ought to be wondering if their identities have been revealed," Cohen said.

Analysts are examining lists of numbers found in bin Laden's files, hoping to find bank accounts, credit cards or ledgers depicting the financial underpinnings of network known to demand strict accounting from its operatives.

Al-Qaida's leadership inside Pakistan rarely championed kidnappings publicly and was not known previously to widely support its use as a funding source. The group historically relied on donations

through a pipeline of couriers and money-changing operations. At the time of the Sept. 11 attacks, the network took in as much as \$30 million annually, but that money flow has tightened, Ruppertsberger said.

CIA drone attacks, combined with economic penalties by the U.S. and its allies, have cut into that stream. At the same time, al-Qaida affiliates have shown that abductions could rake in millions of dollars. As a result, attitudes about ransom operations inside the core group changed.

"That kind of money could go a long way to sustaining a terrorist organization," said Scott Hellstein, director of research at the U.S. Military Academy's Combating Terrorism Center.

A U.S. official familiar with the review of bin Laden's files cautioned

that the kidnapping-for-ransom material found in the seized files was outweighed by bin Laden's more copious notes on terrorist plots and long-range planning.

The official, who insisted on anonymity to discuss the continuing review of classified files, would not elaborate on bin Laden's interest in kidnapping or the precise role al-Qaida's core played in any operations.

The official said the material is consistent with other evidence showing that al-Qaida had turned to abductions within the past two years as money from sympathetic donors dried up and that the group resorted to "basic criminal tactics" to compensate. "People paid up, helping the terrorist group relive its coffers," the official said.
