# Summer Marketing Internship Program Launched

KPI-JCI and Astec Mobile Screens is pleased to announce the inaugural class of marketing department interns for the 2011 summer.

This year's interns — Daniel Filsinger of Clearwater, Neb., and Jordan Slate of Yankton, S.D. — are the first recipients of the internship, said Lisa Carson, marketing manager for KPI-JCI and Astec Mobile Screens. The internship program is designed to give outstanding students a chance to hone skills learned in the classroom and apply them in a real-world business setting. Carson plans to develop the internship program as an ongoing strategy to recruit the best and brightest marketing students to KPI-JCI and Astec Mobile Screens.

"I am very excited about the direction the company is moving in," Carson said. "To be able to put together a program where we can utilize the talents of interns is invaluable to

Filsinger

our department. Likewise, the skills our interns learn here will be valuable as they continue to grow as marketing professionals."

Filsinger, a junior at Mount Marty College in Yankton, is pursuing a dual degree in graphic design and media arts and business administration and is involved in numerous extracurricular activities. His background in business will be used to create market share reports and research opportunities for prospective buyers. Filsinger's design skills will also be put to use through the development of new materials for dealer support.

Slate, who just finished his second year at Southeast Technical Institute in Sioux Falls, S.D., is fulfilling an internship requirement for his marketing degree. As the grandson of Pro-

duction Supervisor Mike Staniech, who has worked at Kolberg-Pioneer, Inc. (KPI-JCI) since 1973, Slate has long been familiar with the KPI-JCI and Astec Mobile Screens family. According to Slate, "Getting a chance to work with this entire marketing team and also having the opportunity to work at such a successful and prominent company is amazing."

The internship program will run through the summer and conclude in August. Applications for the 2012 internship program will be due spring 2012.
