

# America's Farms Keep Us Going STRONG!

We salute our area farmers and agriculture industry for their contributions to our local, national and international communities. Their efforts plant the seeds for prosperity, nourishing our bodies as well as our economy. Innovations in farming technology and agribusiness have created more efficient farms, but it's the hard work and dedication of our family farmers that is the heart and soul of our nation's agriculture industry. These farmers are are also working to preserve the natural resources that make food and fiber production possible. From conservation to innovation, we recognize the challenges and changes facing today's farmers, and gratefully acknowledge the important impact of their continued successes on our lives and our futures.
