and erosion and sediment control and the same is hereby approved. The County Auditor is hereby authorized and directed to endorse on such the proper resolution and certify the same. All present voted aye; motion carried.

Action 1574Z: A motion was made by Harper and seconded by Freng to adopt the following resolution: Whereas it appears Claudell & Susan Munkvold, owners of record, have caused a plat to be made of the following real property: Tract 1, C.J. Munkvold Addition, E1/2, SW1/4, S13-T96N-R56W, hereinafter referred to as Jamesville Township, County of Yankton, State of South Dakota. The E911 address is 43928 294th St., Irene, S.D., and has submitted such plat to the Yankton County Planning Commission and the Yankton County Commission for approval. Now therefore be it resolved that such plat has been executed according to law and conforms to all existing applicable zoning, subdivision and erosion and sediment control and the same is hereby approved. The County Auditor is hereby authorized and directed to endorse on such the proper resolution and certify the same. All present voted aye; motion carried.

Action 1575Z: A motion was made by Freng and seconded by Sinclair to approve travel request to Brookings, SD June 11th thru June 13th, 2014 for the Zoning Administrator. All present voted aye; motion carried.

Action 1576MI: A motion was made by Moore and seconded by Sinclair to approve the appointment of Karen Swanda to the Yankton County Board of Mental Illness and Developmental Disability Board. All present voted aye; motion carried.

Action 1577C: A motion was made by Sinclair and second by Freng to approve the following individuals to the Yankton County Preservation Commission, Jim Means 2 year terms, Crystal Nelson and Bernie Hunhoff 1 year term, Roger Huntley and Ken Jones 3 year terms. All present voted aye; motion carried.

District III Report: Greg Henderson, Executive Director of Planning and Development District III (PDIII), presented his agency's annual performance report for 2013. Henderson said the Small Business Development Center (SBDC) had 34 clients in 2013, which resulted in a \$1,651,309 investment and the saving or creation of 58 jobs. Henderson said PDIII helped Yankton County with a Highway 52 Corridor; and helped the County with a Broadband Initiative proposal. Assisted Yankton County with a HMGP proposal to update the county's Pre-disaster Mitigation Plan (PDM).

Action 1578C: A motion was made by Freng and seconded by Harper to approve the May, 2014 gross payroll: **Commissioners:** \$4,955.77; **Auditor:** \$10,242.26; **Treasurer:** \$15,255.33; **States Attorney:** \$24,796.72; **Custodian:** \$2,662.61; **Director of Equalization:** \$18,807.32; **Register of Deeds:** \$11,766.05; **Veterans Service:** \$1,336.00; **Court-house & Safety Center:** \$5,178.73; **Sheriff:** \$52,556.80; **County Jail:** \$47,435.69; **Cornor:** \$320.00; **Juvenile Detention:** \$0.00; **Nurse:** \$2,466.31; **Ambulance:** \$36,557.76; **WIC:** \$1,211.39; **Extension:** \$5,739.14; **Soil Conservation:** \$2,176.52; **Weed:** 3,353.57; **Planning & Zoning:** \$4,602.47; **Road & Bridge:** \$52,826.40; **OEMHS:** \$5,105.72; **24-7 Program:** \$3,126.00. Flood

From Page 1

Crews built a temporary levee across a section of Interstate 29, forcing motorists to make detours along country roads. National Guard soldiers and South Dakota Transportation workers started dismantling the levee on Friday, removing sandbags and other containers. The governor's office said I-29 should reopen later Friday.

Floodwaters blocked many of the roads connecting South Dakota and Iowa between Sioux Falls and Sioux City. "Great news," Gary Bogengrief, 65, who lives near McCook Lake, said upon hearing the levee was coming down.

The change in the crest was due to a large amount of water released Tuesday night when a levee failed upstream at Akron, Iowa, said Mike Gillispie, a hydrologist at the National Weather Service in Sioux Falls.

"Enough water went

Corps

The July outlook calls for below-average temperatures and above-average precipitation, Todey said. "For July through September, we are looking at cooler than average and wetter than average for our assessment," he said.

The Missouri River reservoir system is occupying 16 percent of its flood-control capacity, Farhat said. In turn, the prospect for widespread Missouri River flooding doesn't appear on the horizon.

"The Montana snowpack has gone down considerably," she said. "The melt is essentially complete, and the inflows into Fort Peck and Garrison are reducing steadily."

In response to a caller's question, Farhat said it's very difficult to compare the current flooding with the historic Missouri River flooding of 2011 that ran from May to September.

"There are huge differences between the two," she said. "The big one is that this is a downstream flood event, which is more typical of what

we see in the basin with rainfall below the reservoir system. It's a normal part of our flood-control operation."

In contrast to the 2011 floodwaters that came from upstream, the current flooding has resulted from rainfall below Gavins Point Dam, she said.

"The other thing, this was a very short duration flood for the folks along the river," she said. "This will be a few days, to as much as a week, above flood stage, compared to months in 2011."

So what does the near- and long-term future hold for the Missouri River basin?

"In the 8- to 14-day period, we are looking at below-normal precipitation for the end of June and the first part of July," Todey said. "Temperatures are forecast near normal throughout the basin."

The 7-day outlook calls for the potential for precipitation, while the outlook for late June and early July calls for a less-active weather pattern, Todey said.

"For now, the next week is the most critical point," he said.

through the levee failure out into agricultural land there that it lowered the amount of water coming through at peak crest at Sioux City," he said.

The river had been expected to crest at Sioux City about a foot above the 108.3-foot record set in 1969. Instead, it peaked at 105.6 feet and began dropping.

As a result, the river in the Sioux City area will stay at a higher level longer than previously predicted, Gillispie said. He expects it to stay above the 99-foot flood stage, the level at which farmland around Sioux City is underwater, into Sunday or Monday.

He said as long as the area doesn't get heavy rain over the next few days, the water should fall back below flood levels. While there is potential for scattered thunderstorms, he doesn't anticipate widespread rain that could send the river significantly higher.

In Minnesota, heavy rains over several days left farm fields are under water and roads washed out. Dams have failed and water

has infiltrated homes from the far north to the far south of the state. Four state parks have been fully or partially closed because of high water.

"The damage is really unprecedented and very widespread," Gov. Mark Dayton said.

In Minneapolis, a large section of mud gave way on a cliff near the Mississippi River. The slide occurred not far from a hospital near the University of Minnesota's campus. Minneapolis Assistant Fire Chief Charles Brynteson said the hospital building is set on bedrock and is sound. Two motorists accelerated to safety as the mud and debris were falling.

"They very easily could have been trapped," he said. "It was close."

Downstream, the Omaha Public Power District said it will reduce power as it prepares for rising water on the Missouri River. The district's Fort Calhoun nuclear power plant sits about 20 miles north of Omaha, and was surrounded by water during flooding three years ago.

public," Pospisil said. This is Pospisil's 10th year selling at Czech Days.

"We've gotten to know a lot of Czechs here," she said. "The Czech heritage is very strong. We have a great time, and there are a lot of good people here."

For parade announcer Bob Kortan of Tabor, the big crowds at Czech Days keep him coming back.

"All the friendly people and new faces you get to meet are the best part," he said. "Many families use this weekend for family reunions;

in fact, some of the floats in the parade (were) family reunions."

Kortan said Czech Days isn't just important to the community of Tabor, but it's important to the Czech heritage, to keep up the ancestry.

The festivities continue today (Saturday).
