Is your Internet stuck at 5 Mbps, 10 Mbps or even 25 Mbps? Even if it doubled in speed, it can't compare to...

## MidcoNet Xstream<sup>®</sup> Wideband. Now up to 200 Mbps.

Midcontinent<sup>®</sup> already delivered the region's fastest Internet (just ask PCMag.com) and best online experience. But we thought we could do better. So get ready...we've DOUBLED your MidcoNet Xstream<sup>®</sup> Wideband download speeds. Choose from up to 60 Mbps, up to 100 Mbps or even up to an amazing 200 Mbps. Really puts "high speed" into perspective doesn't it? So now you get an even more amazing online experience — streaming movies, gaming, TV Everywhere, video chat, connecting your whole family and more. 2X the speed. Up to 200 Mbps. Only from Midcontinent's MidcoNet Xstream<sup>®</sup> Wideband.

Actual Internet speeds may vary depending on your computer or mobile device's capacity, the amount of devices accessing the Internet at once and web traffic. Speeds may also be impacted by third party equipment (such as your router).
