# S.D. Students To Participate In ProStart Competition

MITCHELL - An intense, face-paced culinary and business competition for high school students will be held Tuesday, March 20, in Mitchell.

Thirteen teams of students from eight high schools will compete in the fifth annual South Dakota ProStart Competition. Two winning teams will travel to Baltimore next month to participate in a national competition.

Teams from Brookings, Huron, Lake Area Multi District, Madison, McIntosh, Mitchell, Sioux Falls CTE Academy and Sturgis will participate in the competition, which tests students on culinary and business management knowledge and skills.

In the culinary portion of the competition, teams of students have 60 minutes to get a 3course gourmet meal cooked and plated. Many

of the state's premier chefs will be watching closely, scoring the teams on numerous factors including knife skills, presentation, taste, sanitation and teamwork.

Teams will also go head to head in a business management competition. They will give presentations on the steps they would need to take to start up a restaurant. In addition to providing details about the layout, menu and pricing, they must also have a display board with diagrams. As audience members look on, the teams will be grilled about their plans by foodservice professionals.

The ProStart Competition provides a fun and challenging way for students to put to the test the skills they learn in the classroom," said Shawn Lyons, Executive Director of the South Dakota Retailers Association. "Every year, the

judges and other observers who attend the competition tell us they can't believe the high level of skill they are seeing in these high school students. It's a great foundation for students who plan a career in food service or any type of business."

The ProStart Competition will be held at the South Campus of Mitchell Technical Institute on Tuesday, March 20 (1800 E. Spruce Street). Following orientation sessions for teams and judges, the competition gets under way at 9 a.m. The competition is open to the public at no charge.

South Dakota's ProStart Program and the ProStart Competition are a joint effort of the the South Dakota Department of Education, the South Dakota Retailers Association, and the South Dakota ProStart Advisory Committee.

· Shifting sands that lurk in shallows of the "Big Muddy" Missouri river will be a constant menace to river boatmen who take part in a proposed 3,500 mile race up the navigable length of the stream - from St. Louis to Fort Benton (Mont.). The race is being held "just for the fun of it," and may be the first and last dash of its kind. When the mammoth Fort Peck dam is completed it will be a bar to upstream navigation from that point on, unless locks are built into the huge earth-filled structure now being thrown across the river near Glasgow, in north-eastern Montana. Anyone may enter a cabin cruiser 25 to 26 feet long, with a motor of not more than 85 horsepower.
