Yankton's Forecast

Monday 18
Windy and cold, late flurries
Wind: SE, 30 to 40
High: 33°
Low: 18°

Tuesday 19
Near normal temperatures
Wind: SE, 5 to 15
High: 41°
Low: 15°

Wednesday 20
Becoming colder again, a few clouds
Wind: NE, 0 to 10
High: 33°
Low: 17°

Thursday 21
Light snow expected
Wind: E, 5 to 15
High: 32°
Low: 18°

Friday 22
A few more additional flurries
High: 34°
Low: 19°

Workshop Provides Hands-On Experience

BROOKINGS — Crime, robots and bridge building — this year's Girls, Engineering, Mathematics and Science workshop has quite the schedule. The GEMS program, hosted by South Dakota State University College of Engineering, is designed to expose eighth grade girls to engineering, math and science in a hands-on environment and inspire them to continue in a related field when they enter college.

The GEMS workshop will be held Saturday, March 23. Registration and refreshments begin at 9 a.m. in room 204 in Crothers Engineering Hall on SDSU campus and the closing ceremony will conclude at 5 p.m.

There are three activity sessions available for students.

- "Forensics — Who Dunit?" gives the girls a chance to learn all about fingerprint capture and classification. They will also measure footprints to determine how tall the "perpetrator" might be and put deductive reasoning skills to work in eliminating suspects. Today, robots are no longer simply the stuff of science fiction but are used everywhere from manufacturing to medicine. GEMS students can learn firsthand how robots work in this session. They will build a LEGO-Mindstorm robot car from Lego parts, navigate their creation through a maze and teach it to dance.
- The "Bridge Builder" session puts engineering at the forefront. The girls will participate in discussions about engineering as a profession and what kinds of careers engineers pursue. The interactive portion of the session involves the design, construction and testing of bridge models. The project provides participants with new knowledge of material properties, the physics of trusses and the importance of bonding agents.
- GEMS also provides opportunities for parents and educators. Assistant Dean of Engineering Rich Reid will give a presentation on preparing students for college as they enter high school, and parents and educators have the chance to sit in on their students' activities throughout the day.

Interested girls, parents and teachers can apply for the workshop online by completing the forms at <http://www.sdstate.edu/engr/camps/gems.cfm> or by calling the College of Engineering at 605-688-4161. The event is sponsored by IBM, Daktronics, DGR, Banner, East River Electric, Sencore, Howard R. Green Company and SDSU.

S.D. SHRAB Announces Re-Grant Opportunity

PIERRE — The South Dakota State Historical Records Advisory Board (SHRAB) will offer a re-grant opportunity to local history groups, with grant funds from the National Historical Publications and Records Commission of the National Archives and Records Administration

"With the grant money the SHRAB will be able to disseminate \$3,000 in funds to local repositories, organizations and historical societies, in order to encourage and support identification and preservation of historical records, and training for the staff that care for those records," said Chelle Somsen state SHRAB chair and state archivist with the South Dakota State Historical Society at the Cultural Heritage Center in Pierre.

The deadline for application submission is April 30.

The purpose of the re-grant program, Somsen said, is to address increased access to archival collections; increased opportunities for education, training and development in archives and collection management; identification of important historical records that are at risk; and increased funding for South Dakota's historical records.

The SHRAB advocates for the preservation of historical records, educates the public and records caretakers about the importance of the historical record, and leads the historical community in preserving, promoting and providing access to the state's documentary heritage.

For information on the guidelines for the grant and the application, see <http://history.sd.gov/Archives/SHRAB/shrabactivity.aspx> or call (605) 773-3804.

Obama

From Page 1

other Israeli leaders to address common challenges and advance shared interests in peace and security in the region.

Ben Rhodes, Obama's deputy national security adviser, acknowledged that with a new government, "you don't expect to close the deal on any one major initiative." But he said starting those conversations now "can frame those decisions that ultimately will come down the line."

Among those decisions will be next steps in dealing with Iran's disputed nuclear program.

Israel repeatedly has threatened to take military action should Iran appear to be on the verge of obtaining a bomb. The U.S. has pushed for more time to allow diplomacy and economic penalties to run their course, though Obama insists military action is an option.

The West says Iran's program is aimed at developing weapons technology. Iran says its program is for peaceful energy purposes.

Another central difference between the allies on Iran is the timeline for possible military action.

Netanyahu, in a speech to the United Nations in September, said Iran was about six months away from being able to build a bomb. Obama told an Israeli television station this past week that the U.S. thinks it would take "over a year or so for Iran to actually develop a nuclear weapon."

Michael Oren, the Israeli ambassador to the U.S., tried to play down any division on the Iranian issue ahead of Obama's trip. He said Friday that "the United States and Israel see many of the same facts about the Iranian nuclear program and draw many similar conclusions."

Obama's visit to Israel may quiet critics in the U.S. who interpreted his failure to travel there in his first term as a sign that he was less supportive of the Jewish state than his predecessors. Republican lawmakers levied that criticism frequently during last year's presidential campaign, despite the fact that GOP President George W. Bush did not visit Israel until his final year in office.

The centerpiece of Obama's visit will be a speech in Jerusalem to an audience mainly of Israeli students. It's part of the president's effort to appeal to the Israeli public, particularly young people.

He will make several cultural stops, all steeped in symbolism, in the region. They include the Holocaust memorial Yad Vashem; Mount Herzl, where he'll lay wreaths at the graves of Theodor Herzl, the founder of modern political Zionism, and Yitzhak Rabin, the prime minister who was assassinated in 1995 by a Jewish extremist who opposed Rabin's policy of trading land with the Palestinians for peace; and the Church of the Nativity in Bethlehem, a revered site for Christians.

In a sign of the close military ties between the U.S. and Israel, Obama will view an Iron Dome battery, part of the missile defense system the U.S. has helped pay for.

Traveling to the West Bank, Obama will meet with Palestinian Authority President Mahmoud Abbas and Prime Minister Salam Fayyad in Ramallah. Obama and Fayyad will visit a Palestinian youth center, another attempt to reach the region's young people.

Obama will make a 24-hour stop in Jordan, an important U.S. ally, where the president's focus will be on the violence in neighboring Syria. More than 450,000 Syrians have fled to Jordan, crowding refugee camps and overwhelming aid organizations.

The White House said Obama had no plans to visit a refugee camp while in Jordan, though he will be discussing with government officials how the U.S. can increase its assistance.

In his talks with Jordan's King Abdullah, Obama also will try to shore up the country's fledgling attempts to liberalize its government and stave off an Arab Spring-style movement similar to the ones that have taken down leaders elsewhere in the region.

The president's final stop will be in Petra, Jordan's fabled ancient city.

ON THIS DATE

75 YEARS AGO
Friday, March 18, 1938

- A rather unusual case is to be heard before Justice F. S. Vaughan in justice court here this afternoon in which a church is suing a church member, or former church members, for a pledge alleged to be in arrears.
- Action was taken at a meeting of county superintendents of eastern counties held at Sioux Falls yesterday, to present to the next meeting of the South Dakota Education association the matter of securing legislation to fix definite ages of children to be considered of "school age."

50 YEARS AGO
Monday, March 18, 1963

- Winner of the Jaycee award for the outstanding booth at the Scout Exposition held Saturday night at the city auditorium was Scout Troop 103, Tabor, sponsored by Kortan-Hatwan Post 183, American Legion, and led by Arthur L. McMahon, scoutmaster. The theme of the booth was pioneering.
- The path of Saturday's racing blizzard which caused uncounted thousands of dollars damage was outlined today by 30 telephone company crews totalling 175 men, working to restore long-distance service knocked out in 31 communities in western and northern South Dakota.

25 YEARS AGO
Friday, March 18, 1988

- Testing blood for Acquired Immune Deficiency Syndrome, in addition to tests for hepatitis and syphilis, help prevent hospital patients from receiving tainted blood. At Sacred Heart Hospital each unit or pint of blood goes through three tests for hepatitis, a test for AIDS and one for syphilis.
- Union County has joined some South Dakota cities in offering a program that allows people to give anonymous tips to law officers and become eligible for rewards. "As far as we are aware, Union County is the first in the state to implement a county-wide Crime Stoppers program," said Jaciel Woster, chief of research for the state attorney general's office. "There are other Crime Stoppers programs in the state, but they are for individual cities, not entire counties."

SDSU Extension Master Gardener Training Will Be Offered In Yankton

Master Gardener Training 2013 is offered by South Dakota State University Extension staff with Yankton as a regional site for three hands-on learning days in May.

This year, online learning will be combined with the three sessions at the Yankton County Extension Office on Whiting Drive. Topics include care and selection of trees and shrubs, lawn care, vegetable and flower gardening and more.

The last day to register with a deposit is March 20 and final payment is due March 27.

For more information, contact Mary Roduner, Master Gardener SD Coordinator at (605) 394-1722 Details on website: <http://www.sdstate.edu/sdces/resources/lawn/master-gardeners/>.
