75 YEARS AGO

Monday, May 13, 1935

- The chain letter craze sweeping the country reached proportions of a "gold rush" in Springfield, Mo., where crowds stampeded to join in more than a dozen schemes that flourished in the city, with all classes of society participating.
- The U.S. Supreme Court adjourned today without passing upon the constitutionality of the Frazier-Lemke farm mortgages moratorium or the validity of NFA as challenged in the New York poultry case.
- The mightiest naval concentration in Pearl Harbor's history – 42 sleek warships – rode at anchor today awaiting for a westward dash in secret maneuvers involving a supposed attack of Hawaii.

greeted every mention of U.S. Ambassador Philip Bonsal at a hysterical five-hour anti-American rally at Havana University in Cuba that carried into the early hours today.

- The United States tried but apparently failed today in an effort to sail a giant balloon satellite into orbit around the Earth as a reflector for long-range radio waves. The experiment, called Project Echo, will be tried again later this year.

25 YEARS AGO

- Hundreds became graduates of the University of South Dakota during the 98th annual proceedings on Saturday in the DakotaDome. The commencement address was given by USD alumnus Samuel C. Patterson.
- The Yankton Bucks came close, but the Mitchell Kernels won the ESD boys track and field title at Watertown Saturday.

No words can be found at this time to express what the community of Bloomfield and Crofton, our relatives, friends and strangers have done for our family. To the Bloomfield/Lindy Fire Department, the Bloomfield Ambulance Squad, the EMTs, Rod's co-workers of Farmers Pride and others who went beyond their call and risked their lives to do the best they could to save Rod's life. To our friends who were with us until they found Rod, we are forever grateful. Our heartfelt thanks to Jim/Jerry Wintz for all your help and your comforting words, to Father Schmitz for the beautiful service, to the mass servers, lector, nieces/nephews who were pallbearers, to the St. Rose Choir for the beautiful music, to the St. Rose Guild Ladies who served the funeral meal, the grave diggers, to everyone who brought food to the house and to the service, for the beautiful floral arrangements, to the ones who opened their homes to our family members, ones who babysat the grandchildren, to the many who offered their assistance and helped so our family could all be here together, to all the Battle Creek Farmers Pride Coop branches for being a part of Rod's life, to HSC employees for their support, to Chris for driving me to Bloomfield and staying with us, to Danielle and Misha for their help in keeping the store open in California so Terry, Chris and Chase could be here, to Cari for her help in arranging travel for Chris/Terry, to Plainview Manor/Whispering Pines for helping Juleen/Jim and her family through this, to Southern Public Power and Nebraska State Patrol for their support to Lonnie/Cassie and their family, to Rod's family and to my family, thanks to each and every one of you for coming far distances to be with us. We are overwhelmed by the number of people who have come into our lives, and who Rod touched during his lifetime. If we have left anyone out, it is unintentional. Things change in a second, life is cut short, but memories are forever. God bless each and every one of you. From the bottom of our hearts, thank you.

Nuisance Abatement Information Sheet

What Is A "Public Nuisance?"

For the purposes of this ordinance, "public nuisance" means the condition or use of any parcel on or in which a violation of Yankton County Ordinance 17 has occurred. The conduct of the person committing the violation was such as to annoy residents in the vicinity of the parcel or passers-by on the public streets, sidewalks, and rights-of-way in the vicinity of the parcel.

There are specific violations that are designated "public nuisances" such as open burning, creating a breeding place for flies, mosquitoes and rats or other vermin such as the unhealthy accumulation or stockpiling of garbage, tires and other discarded items. The encroachment of any county road or county right-of-way would also be a "public nuisance", along with the deposition of snow across or in a county right-of-way.

Why Do We Need A "Nuisance Abatement Ordinance?"

The nuisance abatement ordinance will enact a civil remedy to:

1. Give the County and the Circuit Court authority to take civil action to stop properties from being in violation of county law;
2. Make property owners and tenants vigilant in preventing public nuisances on or in their properties;
3. Make property owners responsible for the use of their properties by tenants, guests and occupants;
4. Provide locally enforceable remedies for violations of local ordinances;
5. Otherwise deter public nuisances; and,
6. This ordinance will provide an option for enforcement in the Extra Territorial Jurisdiction area.

What About Existing Facilities?

Current facilities that would be considered nuisances under this ordinance may continue in their present form as long as they do not expand or move from their current location. However, efforts may be taken to help current facilities conform to the new ordinance. Residential nuisances, such as those including but not limited to, abandoned, wrecked and unlicensed vehicles in their yards may be prosecuted under state law or the county zoning ordinance.

How Will This Affect Agriculture?

South Dakota Codified Law 7-8-33 gives Agriculture Producers protection stating that, "the feeding, breeding, or raising of livestock or the operations of a livestock sales barn, is not presumed, by that fact alone, to be a nuisance."

What Is The Process?

1. Following a violation that serves as the basis for a nuisance abatement action, notice of the violation shall be given.
2. Following the notification of violation if no voluntary agreement is achieved or, if the county determines that a party has failed to comply with the terms of the agreement, the matter may be referred to the States Attorney.

What Happens Next?

Upon receipt of a referral for nuisance abatement, the States Attorney will evaluate the case and determine whether or not to initiate a court action. If a decision is made to file a civil nuisance action, the States Attorney will proceed by serving the summons and complaint and filing the case in the Circuit Court. Should the Court find there is a Class 2 misdemeanor violation then a maximum penalty of 30 days in jail and/or a \$200.00 fine could be levied. (Each and every day that the violation continues may constitute a separate offense.)

This information is intended to be a general overview of the nuisance ordinance. For the complete text, including definitions, a copy of the ordinance may be viewed at the Yankton County Auditors office during normal business hours.
