DAILY RECORD

POUND COUNT

Several animals are available at the Yankton Animal Shelter. For more information call the Yankton Police Department's Animal Control Officer, from 8 a.m.-4 p.m. Monday-Friday at 668-5210. A \$5 fee is required to adopt an animal. Animals can be viewed on the Humane Society Web site at www.heartlandhumanesociety.net.

DAILY RECORD POLICY

The Press and Dakotan publishes police and sheriff reports as a public service to its readers. It is important to remember that an arrest should not imply guilt and that every person is presumed innocent until proven otherwise. When juveniles are released from jail, it is into the care of a parent or guardian.

It is the policy of the Press and Dakotan to publish all names made available in the police and court reports. There are no exceptions.

ARRESTS

Alexander Slagle, 18, Yankton, was arrested Wednesday for reckless driving.
 A 17-year-old Volin female was arrested Wednesday for driving under the influence; ingest, inhale substance to become intoxicated; and unlicensed driver.

ACCIDENTS

A Toyota was rear-ended by a Chevrolet Blazer in the 400 block of W. 15th St. at 4:39 p.m. Tuesday. The driver of the Chevrolet was cited for careless driving.

BOARD OF TRADE

CHICAGO (AP) — Grains futures fell Wednesday on the Chicago Board of Trade.
 Wheat for July delivery fell 3 cents to \$6.5375 a bushel; July corn fell 3 cents to \$5.5950 a bushel; July oats fell 9.75 cents to \$2.7075 a bushel; while July soybeans fell 13.50 cents to \$13.7325 a bushel.

Beef and pork futures were mixed on the Chicago Mercantile Exchange.
 June live cattle fell 1.40 cent to \$1.1645 a pound; August feeder cattle fell 1.50 cent to \$1.5607 a pound; while June lean hogs rose 0.82 cent to 87.17 cents a pound.

'Bingo Bonanza' Events To Benefit Riverboat Days Group

A bingo bonanza and raffle to benefit Yankton Area Riverboat Days, Inc., will be held June 5 and June 26 at the Moose Lodge, 310 Walnut, Yankton.
 The event will feature bingo played from 6:30-8:30 p.m. Cards are 50 cents apiece. Food will be available. Also, a 50/50 raffle will be held both nights.

All proceeds raised from this project will be matched by Modern Woodmen of America Chapter 3769 of Randolph, Neb., up to \$1,000. The money will be donated to Yankton Area Riverboat Days, Inc., to be used for the purchase of a small Ferris wheel for the children's area.

Nebraska Road Tour In Area Saturday

The 20th annual Nebraska Rod and Custom Association (NRCA) 600 Mile Tour Nebraska driving event will be held on June 2-3 in northeast Nebraska, with a leg running through South Dakota on Saturday, June 2.
 This is a road Tour in classic, antique and special interest vehicles. This unique driving event draws considerable local interest. The tour route this year will go through or near 30 towns and villages including some within your coverage area. There are many car shows and car events during the summer season; however, there is no other event like Tour Nebraska. The Tour Nebraska route changes every year as we showcase the special attractions of Nebraska to our members while bringing a classic car show to the area.
 The tour on Saturday includes area stops in Hadar (starting at 7:15 a.m.), Pierce, Os-

mond, Creighton (8:10 a.m.), Center (8:25 a.m.), Verdigre (8:35 a.m.) and Niobrara (8:50 a.m.). After a break, the tour will cross into South Dakota and visit Springfield (10:20 a.m.), Tyndall (10:35 a.m.), Tabor (10:50 a.m.), Yankton (11:20 a.m.) and Vermillion (noon). After lunch at the DakotaDome, the tour goes back into Nebraska to Maskell, Hartington (2:20 p.m.), Wayne and Norfolk.
 The Sunday section of the tour veers south toward York, Neb.
 There are morning and noon stops along the way but otherwise a lawn chair along side of the road or the tail gate of a pickup will give an excellent view of the Tour vehicles in action. You can hear the sound of vehicles coming five miles away, and it will take more than 20 minutes for the Tour to go by.
 Approximately 325 vehicles have pre-reg-

istered for Tour Nebraska which is a "traveling parade" of 15 miles or more. With drivers and passengers, more than 700 people will participate. Pre-tour arrangements have been made at scheduled stops and, as much as possible, local law enforcement is utilized to help prevent congestion.
 The goal of the 1,400 members of the Nebraska Rod and Custom Association is to protect the rights of special interest vehicle owners who enjoy driving them on the streets and highways of Nebraska. This is a goodwill tour and members look forward to meeting the people who enjoy vintage automobiles. Participants/members come from all over Nebraska and some from surrounding states.

United Way Of Vermillion Hires New Director

VERMILLION — United Way of Vermillion has announced that Kelsey Collier-Wise has been hired as executive director.
 Collier-Wise is a long-time member of the Vermillion community, and a graduate of Vermillion High School and the USD School of Law.
 "We're extremely excited to have Kelsey on board," said United Way President Dan Kenton. "We're looking forward to having someone with her skills and knowledge as we strive to make a positive difference in Vermillion."
 For Collier-Wise, the feeling is mutual. "United Way of Vermillion is an incredible organization," she said. "I feel honored to be a part of the team."
 United Way of Vermillion improves lives by mobilizing the caring power of the community through focus on education, income, and health. Learn more about United Way of Vermillion at http://www.unitedwayofvermillion.org.

Lead

From Page 1

years — and his colleagues know only that it could explain why the universe isn't made up equally of matter and antimatter. That, in turn, could explain how the world as we know it came to be.
 Gaitskell and Schutt were among a handful of scientists Wednesday who greeted Gov. Dennis Dugaard, former Gov. Mike Rounds, philanthropist T. Denny Sanford and dozens of scientists and journalists who took the 11-minute ride down a shaft that had been used by countless miners for more than a century.
 Beneath the earth are 370 miles of tunnels over 7,700 acres. The new lab takes up about 10,000 square feet, leaving plenty of room for expansion. The once-grimy mine has been washed clean and painted white. Concrete paths were poured for easier walking, and clean rooms ensure that the experiments won't be tainted.
 Now the site's ideal, said Kevin Lesko, of Lawrence Berkley National Lab, who is the principal investigator for the Sanford Underground Research Facility. Dark matter is too sensitive to detect in normal laboratories, but one so far underground would help shield it from pesky cosmic radia-

tion. Also, the LUX detector is submerged in water, further insulating it.
 The unveiling was a long time coming: The mine opened during the Black Hills' gold rush in 1876 and outlasted many counterparts. In the late 1990s, it employed about 1,000 people, but as the value of gold dropped, hundreds of miners gradually lost their jobs. The mine shuttered for good in 2003.
 The science community seized on the closure for its lab potential. Gaitskell said he's worked with 70 scientists and 14 institutions over the past four years to make the LUX experiment a reality.
 That detector is in the Davis Campus, named after Ray Davis, who won a Nobel Prize for Physics for an experiment he started in 1965 inside the then-working mine. Davis died six years ago; his widow, Anna Davis, brought a replica of her husband's prize to Wednesday's unveiling.
 Nearby in a new hall called the Transition Area will be the Majorana Demonstrator Experiment. That's aimed to search for a rare form of radioactive decay, which could help physicists understand how the universe evolved.
 Experiments are set to begin this year, said Bill Harlan, spokesman for the research facility. All told, the site has cost more than

\$300 million — a mix of private donations and state and federal funding. Daily operation costs are covered by the U.S. Department of Energy.
 About 70 former mine workers now work for the lab. Greg King, a lifelong Lead resident, is one of them.
 "The whole town was built up around the Homestake," King said. "As the property closed and people left, a lot of employees left. Now, there's a lot of excitement in town. People are very thrilled that the Homestake is once again, albeit not as a mine."
 Liz Tiger, who owns a consignment store on Main Street, said the resurrection of the mine represents hope for Lead, a town of about 3,100 residents about a half-hour from the Wyoming border. Three generations of Tiger's family worked for the mining company.
 "The economy up here really died after Homestake shut down," she said. "It was absolutely devastating."
 Had it not been for Deadwood, Lead's higher-profile neighbor that draws about 2 million tourists a year, the town might have gone under, she said.
 "I was raised through Homestake. I was very sad when it was shut down. (The mine) definitely needed to be used for something."
