MMC To Present DOE Genome Findings

The Mount Marty College Division of Natural Sciences' Seminar on the "Interpret a Genome" program will be held at 4 p.m. Friday, May 2, in SLC 107 on the Yankton campus.

MMC students have been annotating the gene functions of their assigned bacteria Sphaerochaeta coccoides (S. coccoides) strain SPN1.

The "Interpret a Genome" program provides students in colleges and universities with access to recently sequenced microbial genomes selected as part of the DOE JGI's Genomic Encyclopedia of Bacteria and Archaea (GEBA) project. The students annotate the genomes in the context of their own classwork, gaining hands-on knowledge

The DOE is particularly interested in the MMC microbe since it ferments different carbohydrates and produces ethanol, acetate, and formate as the main fermentation end products. Thus, this microorganism could possibly be used in the direct bioconversion of cellulose-containing wastes to fuel such as ethanol or it may harbor enzymes with potential biotechnological applications.

Mount Marty College students in Dr. Vicki Geiser's Cell and Molecular Biology course have been learning how to annotate the function of genes in the MMC genome this semester. These students will present their initial and continued findings of the "Interpret a Genome" program at the Division of Natural Science's Seminar at 4 p.m. Friday, May 2, on MMC's Yankton campus in the Scholastica Learning Center (SLC-107). The public is invited to hear the students' research results and to discover more about bioinformatics and Mount Marty College's microbe, Sphaerochaeta coccoides strain SPN1

For more information on the DOE JGI program, visit www.jgi.doe.gov/.

'Pretty Pots,' 'Needles' Classes Set

If you're looking for a way to create something extra special for a friend, loved one or even for yourself, you'll want to sign up for one of RTEC's "just for fun" classes. Both available classes, "Knitting Without Needles" and "Pretty Pots: Container Gardening for Beginners," will be presented from 9 a.m. to Noon on Saturday, May 3, at

RTEC, 1200 W. 21st St.

"Knitting Without Needles" is back by popular demand

Culver's To Open Yankton Location

BY NATHAN JOHNSON nathan.johnson@yankton.net

A Culver's restaurant is set to open in Yankton this fall.

The facility will be built on an outlot at the Menards development on the

north side of Yankton. Jason Bradley, who also owns Cul-

ver's franchises in Aberdeen and Mitchell with his wife, Kristi, joked that it had been one of the worst-kept secrets in the state.

"I was getting a lot of questions from our Yankton guests about rumors we were coming when they visited our Mitchell location," the Mitchell resident said. "That's been going on for the last six to eight weeks. That's the beauty of our small South Dakota communities.

Everybody wants to be in the know. I'm OK with it. I'm excited that it has created a buzz.'

Due diligence for the estimated \$1.75 million project has been under way for some time, according to Bradley.

"It's a great opportunity for expan-sion," he said. "We get a lot of business from Yankton residents at our Mitchell location, so we know there is a

familiarity with Culver's and what we have to offer."

Construction is set to begin in late May or early June, and Bradley hopes the business is open around October.

Culver's originated in Sauk City, Wisconsin, in 1984 and has since expanded to more than 450 restaurants in 19 states.

Each restaurant employs 30-75 team members year-round, with approximately 10 additional summertime positions, according to the company's website.

"I'm really excited to join the Yankton community," Bradley said.

DAILY RECORD

POUND COUNT

Several animals are available at the Yankton Animal Shelter. For more information, call the Yankton Police Department's animal control officer from 8 a.m.-4 p.m. Monday-Friday at 661-9494, or 668-5210.

DAILY RECORD POLICY

The Press & Dakotan publishes police and sheriff reports as a public service to its readers. It is important to remember that an arrest should not imply guilt and that every person is presumed innocent until proven otherwise. When juveniles are re-leased from jail, it is into the care of

a parent or guardian. It is the policy of the **Press &** Dakotan to publish all names made available in the police and court reports. There are no exceptions

 Tanner Termansen, 18, Yankton, was arrested Tuesday for falsely reporting a bomb threat. Brandon Kinnear, 22, Carter Lake, Iowa, was arrested Tuesday on a warrant for violation of sus-

pended imposition. Samuel Langley, 34, Yankton, was arrested Wednesday for driving under the influence (second). A 16-year-old Tabor female was arrested Wednesday on a probation hold.

ARRESTS

and has been expanded to three hours to allow participants more time to learn the unique knitting technique taught by instructor MaryBeth Herrboldt. During the class, she will teach you how to knit using your arms instead of needles as you fashion a beautiful infinity scarf.

There is a cost for this class. Each participant should bring a scissors and two skeins of either #5 chunky or #6 extra chunky yarn in a color or colors of their choice.

The "Pretty Pots" class will demonstrate how to create beautiful flowering planter that can add a splash of color to your porch, deck, patio or backyard. Instructor Laura Willard will teach you what to consider when selecting plants and flowers for the perfect showpiece.

Then you'll be able to roll up your sleeves and plant your own container garden in the pot you've brought to class (maximum 14 inches diameter). Your pretty pot will be planted and ready to take home so you or the lucky recipient

can watch it grow into a blooming beauty. There is a cost for this class. Participants should specify either sun or shade plants when registering and should bring garden gloves and a pot/planter up to 14 inches in diameter. Potting soil and plants will be provided.

No previous experience is required with either "just for fun" class, making them ideal for anyone (age 13 and up) who would like to explore new knitting or gardening techniques.

For more information or to register, contact RTEC at (605) 668-5700. More information can be found on RTEC's Facebook page or on the web at www.rtecedu.org.

WALL ST. RECAP

The Dow Jones industrial average rose to an all-time high on Wednesday after investors assessed more corporate earnings, the latest move from the Fed and an unexpect-edly weak reading on economic growth in the first quarter. Sealed Air, a food packing company, and C.H. Robinson, a freight company, were among stocks that rose after reporting earnings.

ON WEDNESDAY:

The Dow Jones industrial average rose 45.47 points, or 0.3 percent,

The Standard & Poor's 500 index

The Nasdaq composite climbed

ained 5.62 points, or 0.3 percent, to

16,580.84.

1,883.95

11.01 points, or 0.3 percent, to 4,114.56.

FOR THE WEEK:

The Dow Jones industrial average is up 219.38 points, or 1.3 per-

cent. The Standard & Poor's 500 index is up 20.55 points, or 1.1 percent. The Nasdaq composite is up 38.99 points, or 1 percent.

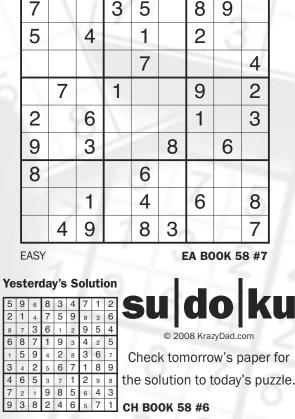

FOR THE YEAR:

The Dow is up 4.18 points, or 0.03 percent.

The S&P 500 index is up 35.59 points, or 1.9 percent.

The Nasdaq composite is down 62.03 points, or 1.5 percent.
