Meridian Bridge

Walnut Street
The Meridian Bridge, a long-time landmark in Yankton, is the result of hard work and determination of local citizens. The bridge closed to vehicle transportation in October 2008, but opened in November 2011 to foot traffic. The bridge welcomes foot and bike traffic. Spanning over 3,029 feet, the Meridian Bridge is the longest pedestrian bridge connecting two states, Nebraska and South Dakota. It was originally built in 1924 and was the first permanent bridge crossing the Missouri River. This unique bridge is a "double-decker" with one lane positioned above another. It was constructed as a lift-span bridge to allow riverboat traffic to traverse the river. Up until 1953, it was operated as a toll bridge.
