Family Medicine Nurse

**Q:** Why are you passionate about your job?

**A:** I have always wanted to be a nurse since I was a little girl. I get to work with a variety of people and attempt to make life better through their health care needs.

**Q:** What changes have you seen since you started?

**A:** Medicine is always changing. Years ago, the hospital stays were longer, but now we are able to see more people who are recovering both at the clinic and at home. Telemedicine and electronic records are also recent additions. Getting people to be more active with their health care is always a challenge.

**Q:** Why do you love working for Yankton Medical Clinic?

**A:** I enjoy family medicine and my co-workers. It is beneficial to have so many specialties under one roof.
