Neb. Transportation **Improvement Plan Revision Announced**

LINCOLN, Neb. — The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) require each state highway agency to develop a Statewide Transportation Improvement Program

The STIP must list all highway and transit projects that will be using federal funds, as well as all regionally significant transportation projects using non-federal funding sources. It covers a period of four years and in Nebraska is updated every year on Oct. 1. Periodically, the Nebraska Department of Roads (NDOR) must amend the STIP for reasons such as; to add or remove projects, to make adjustments to funding sources or estimates or to update a project's scope of work.

An amendment, referred to as Revision 4. is available for public comment on the NDOR website www.roads.nebraska. gov/STIP/index-public-com-

ment.html through May 20. The FHWA and the FTA will not approve the revision until the public comment period has ended and comments have been evaluated and incorporated in the revision as appropriate.

A copy of the proposed STIP Public Involvement Plan may be obtained upon request to the Communication Office, 1500 Highway 2, P.O. Box 94759, Lincoln, NE 68509-4759, or by calling (402) 479-4512 or by e-mail at maryjo.oie@nebraska.

Under federal legislation, the Nebraska Department of Roads is required to have a public involvement plan for the STIP in place. This plan can be viewed at www.roads.nebraska. gov/STIP/.

Federal law requires that all citizens and other interested parties in the State's transportation planning process be given reasonable opportunity to comment on the proposed STIP and on any proposed amendments to an approved STIP. NDOR uses statewide news releases and an automated email subscription management system called GovDelivery to inform the public and advise them of the means and time period to comment on STIP's and any amendments. All comments will be addressed and those responses reported to the FHWA and FTA.
