

COMMUNITY CALENDAR

The Community Calendar appears each Monday and Thursday. Contributions to this list of upcoming events are welcome and should be submitted two weeks before the event. Submissions **MUST** be typewritten or legibly printed and include the name and phone number of a contact person. Send items to P&D Calendar, 319 Walnut, Yankton, SD 57078, or email to news@yankton.net.

TUESDAY

Table Tennis, 8:30 a.m., The Center, 605-665-4685
Billiards, 10 a.m., The Center, 605-665-4685
Explore the Bible, 10:30 a.m., The Center, 605-665-4685
Pinochle, 12:45 p.m., The Center, 605-665-4685
Wii Bowling, 1 p.m., The Center, 605-665-4685
English as a Second Language classes, 2-5 p.m., United Church of Christ, Fifth and Walnut, Yankton. (605) 660-5612.
AA, Alano Group 7 p.m., step meeting, 1019 W. 9th St. Yankton.
Bingo, 7-9 p.m., The Center, 605-665-4685. (Open to the public)
Weight Watchers, 10:30 a.m. (weigh-ins 30 minutes prior), 413 W. 15th Street. For more information, call 605-665-2987.

WEDNESDAY

Line Dancing, 9:30 a.m., The Center, 605-665-4685
Nurse, 10 a.m.-noon, The Center, 605-665-4685
Exercise, 11 a.m., The Center, 605-665-4685
Whist, 12:30 p.m., The Center, 605-665-4685
Partnership Bridge, 1 p.m., The Center, 605-665-4685
Rummikub, 1 p.m., The Center, 605-665-4685
Penny Bingo, 1 p.m., The Center, 605-665-4685
Chair Massage, 1:40-3:50 p.m., The Center, 605-665-4685
English as a Second Language classes, 2-5 p.m., United Church of Christ, Fifth and Walnut, Yankton. (605) 660-5612.
Meditation Sessions, Olde Rectory at Christ Episcopal Church, 513 Douglas, Yankton, 7-8:30 p.m., 665-3344 or 665-2456.
Narcotics Anonymous "Road To Recovery" Group, 8 p.m., open meeting, First United Methodist Church (northeast door), 207 W. 11th St. Yankton
AA, Alano Group, 7 p.m., discussion, 1019 W. 9th St. Yankton.

THURSDAY

Table Tennis, 8:30 a.m., The Center, 605-665-4685
Wii Bowling, 9:30 a.m., The Center, 605-665-4685
Billiards, 10 a.m., The Center, 605-665-4685
ASHH Toastmasters Club #217, noon, Avera Sacred Heart Pavilion, conference room no. 2, Yankton, 605-665-6776.
Pinochle, 12:45 p.m., The Center, 605-665-4685
Dominos, 1 p.m., The Center, 605-665-4685
English as a Second Language classes, 2-5 p.m., United Church of Christ, Fifth and Walnut, Yankton. (605) 660-5612.
Love Addicts Anonymous, 7 p.m., for women, 120 West Third Street, Yankton. 605-760-5307.
AA, Alano Group, 8:30 p.m., speaker, 1019 W. 9th St. Yankton.
Weight Watchers, 5:30 p.m. (weigh-ins 30 minutes prior), 413 W. 15th Street. For more information, call 605-665-2987.
Take Off Pounds Sensibly (TOPS #SD 45), Weigh-in 5:30-6:30 p.m., meeting 6:30-7:30. RTEC building, 1200 W. 21st St. For more information call 605-665-8442
Yankton Area Banquet, 6-7 p.m., United Church of Christ, Fifth and Walnut

FOURTH THURSDAY

Yankton County Farmers Union, 7 p.m., Sunrise Apartments, 2015 Green St., Yankton. 661-7667.

'Plant A Row' Honors 40 Years Assistance

As the grass greens, flowers bloom, and temperatures warm, you'll soon start to see many people out tending their gardens. And when it comes time to harvest the fresh vegetable, one hunger relief organization is hoping you'll have some to spare.

Feeding South Dakota is celebrating its 40th anniversary this year. In 1975, the Food Service Center opened in Sioux Falls. Throughout the past 40 years, the organization went statewide, joining with the Black Hills Regional Food Bank, and adding another central location in Pierre.

In celebration, Feeding South Dakota is hoping to receive 40,000 pounds of fresh produce in honor of 40 years through their "Plant a Row" campaign. The organization is asking the community to plant one row dedicated to someone who needs it - someone who is going hungry - and donate the bounty to one of their three facilities across the state or to a local food pantry this fall.

"Providing more nutritional foods is one of the key initiatives we are working on at Feeding South Dakota," says Matt Gassen, Executive Director of Feeding South Dakota. "When we thought about how to commemorate our 40th anniversary, it only made sense to do so in a way that honored those we serve. With the participation of the entire state, we know we can reach our goal of 40,000 pounds of produce to celebrate 40 years."

BIRTHS

KARLYLE CHRISTENSEN

Karlyle Dennis Christensen was born to Katie and Jake Christensen April 30, 2015. He weighed 7 pounds, 2 ounces.

His grandparents are Dean and Cheryl Anderson, Yankton; Dan Christensen, Mission Hill; and Deanna Swenson, Rapid City.

Great-grandparents are Dorothy Anderson, Lorraine Cahoy and Shirley Christensen, all of Yankton; and Adeline Lowe of Rapid City.

LAURA VILLANUEVA

Mike and Mary Lee (Hochstein) Villanueva of Yankton announce the birth of Laura Elyse Villanueva, who was born May 15, 2015, at Avera Sacred Heart Hospital. She weighed 7 pounds, 8 ounces. She joins her siblings

Liam, 7; Maya, 6; and Kelsey 3.

Grandparents are Dolores Hochstein, Wynot, Nebraska; Joan Villanueva, Omaha, Nebraska; and Mike Villanueva Omaha.

BROCK PINKELMAN

Tyler Pinkelman and Adisa Formo of Randolph, Nebraska, announce the birth of their son, Brock Andrew Pinkelman, born May 5, 2015 at 5:55 a.m. He weighed 8 pounds, 1 ounce and was 20 inches long.

Grandparents are Brice and Lorrie Pinkelman of St. Helena, Nebraska, and Bob and Pat Formo of Yankton.

Great-grandparents are Cyril and Colletta Wabben of Fordyce, Nebraska.

BY RAY MAGLIOZZI

Dear Car Talk:

I have a perplexing problem with the driver's-side power window in my 2003 Plymouth Voyager. About three years ago, I pressed the button to roll it down and nothing happened except a faint "click" sound. I figured I would need to take it in, but I went on with life. I continued to press the button out of habit when I went to drive-thru windows, etc. About three weeks later, it worked again. About two months after that, it stopped working. I have been through this same working/not-working cycle about 10 times in the past three years. There seems to be no correlation with weather, temperature, driving frequency, distance — nada! Any idea as to what is going on?

— Jamey

Well, since you're driving an '03 Voyager and have demonstrated an impressive lack of urgency about this — living without a roll-down driver's window for three years rather than pay a mechanic to look at it — I'm going to guess you don't want to invest a lot of money in solving this puzzle. So start with the easiest approach to failing electrical equipment: What it.

Sometimes, when an electrical switch or motor is failing, tapping on it or giving it a jolt can bring it back to life — albeit temporarily. But everything related to an '03 Voyager should be viewed as temporary.

Assuming you've checked the circuit breaker in the driver's foot well and it's good, start with the window switch itself.

Try poking at the driver's window switch more forcefully than you normally do. If the contacts for the window switch itself are rusting or coming apart, sometimes a little extra force can get them to work again for a while — sometimes

Ray
MAGLIOZZI

can replace the switch (which is what I'd do).

If you can't get the window to work by being more vigorous with the switch, the next thing you can try to test is the window motor. That's inside the door. The easiest way to test it, without investing time or money, is to give it a Judge Judy Gavel it.

While an assistant is holding down the window switch, close your fist and give the middle to lower half of the door some quick, sharp blows with the bottom of your fist. Try it from the inside first, and then from the outside. Obviously, don't use so much force that you dent the car. Or your hand.

If the motor is failing, a jolt like that often will get it to start working again, at least temporarily. But more importantly, it'll tell you that the motor probably is the culprit here. Then you can either replace it (which is what I'd do), or go to the gym and do fist exercises (which is what you'll do).

If you can't get the window to respond to those tests, then you may have to resort to actual diagnostic methods. Start by removing the window switch and using a test light to see if it's getting power.

If there's no power getting to the switch, the next thing I'd suspect is a bro-

ken, or almost broken, wire in that bundle of wires that runs through the driver's door pillar and into the door. Those wires connect to things like the window switches, the door-locking switches and the side-view mirror adjusters. After opening and closing that door 500,000 times (that's the door that gets used the most), it's certainly possible that one of those wires is frayed or partially broken.

If there is power to the switch when you test it, then that suggests that the motor is bad. Then you'll need to remove the interior door panel, if you haven't already broken it by banging on it, and confirm that power is getting to the motor — which it probably is.

Once the motor is exposed, you can try the Judge Judy again, this time tapping it directly with the end of a screwdriver or some such thing. Or you can just replace it.

And whatever your diagnosis, you can look for parts at a junkyard. These cars were plentiful, which means rusted-out ones are now plentiful in the nation's junkyards. Just be sure to park a block away so you don't come back to find other shoppers eagerly pulling parts off your car.

Used cars can be a great bargain, and reliable, too! Find out why by ordering Click and Clack's pamphlet "How to Buy a Great Used Car: Secrets Only Your Mechanic Knows." Send \$4.75 (check or money order) to Used Car, P.O. Box 536475, Orlando, FL 32853-6475.

Got a question about cars? Write to Car Talk in care of this newspaper, or email by visiting the Car Talk website at www.cartalk.com.

Spring Flowering Shrubs To Try In Your Landscaping

BY JOHN BALL
SDSU Extension Professor

Early spring flowering shrubs have a special place in our landscapes as they are the heralds of the warm weather yet to come.

While our home landscapes should have interest year around, from spring and summer flowers to summer fruit to brilliant autumn foliage, a space or two should be devoted to an early spring flowering shrub or two.

One of the most commonly planted early flowering shrubs is the forsythia (Forsythia) also known as golden bell for its bright yellow pendulous flowers that lace every cane. Unfortunately, the most commonly planted species in much of the country, the border forsythia (F. x intermedia) and its many cultivars, are not flower bud hardy in South Dakota.

While the canes of the border forsythia can survive our cold winters, its flower buds are often killed when the winter temperatures dip below 10 degrees Fahrenheit — a frequent event during our South Dakota winters. Therefore, it is common in the spring to see border forsythias blooming only along the lower canes, the ones that were beneath the insulating snow. Fortunately, there exists

forsythia cultivars that are flower bud hardy to the Northern Plains. Probably the best known is "Meadowlark," a joint release by North Dakota State University and South Dakota State University that is flower bud hardy to below 35 degrees Fahrenheit.

"Meadowlark" forsythias are now in bloom across much of South Dakota and, despite the recent cold weather, almost every cane can be found lined with brilliant yellow blossoms.

There are two other flower bud hardy forsythias for our region. One is "Northern Sun," introduced by the Minnesota Landscape Arboretum and is flower bud hardy to below 30 degrees Fahrenheit and "Northern Gold" which is also flower bud hardy to below 30 degrees Fahrenheit.

FORSYTHIAS

Forsythias reach a mature height and spread of about 6 to 10 feet so they need plenty of room in the home landscape. They also will slowly sucker out so will need to be occasionally cut back from

taking over an adjacent flower bed.

Forsythias thrive under most growing conditions, except wet sites and are tolerant of slightly alkaline soils.

Forsythias are truly a single-season shrub as they lack interesting fruit, bark or autumn foliage color. They have only about one or two weeks of landscape interest during the spring flowering, but it's a pretty week or two during April.

CORNELIANCHERRY

Another spring flower shrub that blooms at the same time as forsythia is the corneliancherry (Cornus mas) which despite the word "cherry" in the name, is actually a dogwood. This European native is prized for its mid-April yellow flowers that appear before the leaves veiling every branch with its blossoms. The flowers bloom for several weeks and withstand frosts.

The name corneliancherry comes from its cherry-like fruit. While the mid-summer fruit does resemble a cherry, bright red, though more

pear-shaped than round, the taste will tell the two apart as corneliancherry fruit is very tart and a little too sour to eat right off the shrub.

The "cherry" is easy to harvest as you do not have to fight the birds for them but they should be picked fully ripe. The easiest way is to place a sheet beneath the shrub and collect the fruit as it falls. It is used for jams and preserves and even sherbet.

Corneliancherry is not hardy throughout the state and is best planted south of Highway 14 and east of the Missouri River. There are also a few nice specimens in the Black Hills.

The shrub almost becomes a tree when planted southeastern South Dakota where it reaches 10 feet or more. Corneliancherry is tolerant of most soils, though performs best on moist, well-drained sites that have neutral or only slightly alkaline soils. Protection from the north wind winds is necessary if planted near the northern limits of its range.

UNITED STATES AIR FORCE
HEARTLAND of AMERICA BAND
presents...
VORTEX
FREE Community Concert
Wednesday, June 10, 2015
7:00 p.m.
Yankton High School Theater
1801 Summit St., Yankton
For your free tickets go to:
1. <http://usaf-heartland-of-america-band.ticketleap.com/yankton>
2. Click "Register"
3. Select the number of tickets

• THE P&D

The family of Ralph J. Morman sincerely appreciates and thanks all of those whom participated in anyway, the celebration of his life and recent passing.

Special gratitude are extended to: Wintz-Ray Funeral Home personnel Paul, Steve and Jim Wintz, officiating priest Fr. Mark Lichter for a prayerful vigil and mass, all family, friends and neighbors who sent prayers, flowers, memorials, monetary gifts, thoughtful cards and those in attendance at the vigil and/or closing celebration. We are grateful for the service of: Michael and Greg Kappel, Don and Dave Morman, Keith Wing and Kelly Sorensen as pallbearers. We also thank those wanting to attend but couldn't in person.

We humbly thank those people behind the scenes whom deserve praise. Betty Adam (lector), Robert Kappel (soloist), Troy Kunz (reader), Jan Byrkeland (florist), altar and luncheon servers, food providers, ushers, organist, choir, church preparers, Avera Sacred Heart staff, and special care giver Lori Hoffman.

We are especially honored for the grave site rites by VFW Post 791, Yankton and moving performance of taps by Scott Olson.

We are blessed by all your respect for Ralph and the family.

God Bless You All,
The Family of Ralph J. Morman
