Stroke, Osteoporosis Screenings Set For Mon.

Residents living in and around Yankton can be screened to reduce their risk of having a stroke or bone fracture. First Assembly of God Church, 801 W. 25th St., Yankton, will host Life Line Screening on Monday, Nov. 14.
 Four key points every person needs to know:
 • Stroke is the third leading cause of death and a leading cause of permanent disability
 • 80 percent of stroke victims had no apparent warning signs prior to their stroke
 • Preventive ultrasound screenings can help you avoid a stroke
 • Screenings are fast, noninvasive, painless, affordable and convenient
 Screenings identify potential cardiovascular conditions such as blocked arteries and irregular heart rhythm, abdominal aortic aneurysms, and hardening of the arteries in the legs, which is a strong predictor of heart disease. A bone density screening to assess osteoporosis risk is also offered and is appropriate for both men and women. Many sites offer finger-stick blood tests to check for cholesterol and glucose.
 All five screenings take 60-90 minutes to complete. There is a cost for the screening.
 For more information regarding the screenings or to schedule an appointment, call 1-800-697-9721 or visit www.lifelinescreening.com. Pre-registration is required.

Dazzling, burnished until a lady could powder her nose using the hoods for mirrors, the 1937 motor car models were unveiled at the national automobile show today with great ado about over-drives, hypoid gears, recessed buttons on the instrument panel and other things which tempt a man to part with his money.
