## AMERICAN TRUCK DRIVING ACADEMY

**We Now Have Truck Simulators!!**

*An environment that puts drivers behind the wheel without being on the road in many conditions!!*

**Driving Simulators**

We have the tools, experience and expertise to train professional Truck Drivers. We are one of the schools in SD that use training simulators!!! We use these simulators to assist our students, train them to drive on most any road condition that they may face that would be too dangerous in an actual trucking situation. In addition to our classroom and lab teaching, we have field driving courses to use for practice.

We offer other services to trucking companies, to test for qualifications of potential drivers, CDL qualifications and more. We provide a written printout of the testing results, and will train at their request any sections that they did not pass.

**Trucking Companies**

You will not want to miss out on the opportunity for drivers presented to the participating businesses without any fees.

This program was designed to put several trucking companies working together to form many details of their own school in a non competitive environment, to train students for their specific needs and to guarantee the student under contract, will work for them for a pre-determined period of time.

**Potential Drivers**

If you are interested in a career where you can enjoy a well paid job on the open road, where lay offs are rare, please give us a call. If you need assistance for tuition we may be able to help if you qualify. We are working with SD Dept of Labor, Work Investment Act (WIA), Inmates ready to be discharged, (WI) Santee Indian Reservation, The Sioux Indian Tribe and many other programs willing to assist. We are currently in the process of getting certified with the GI Benefits Association.

**Truckers, Students & Trucking Vendors Welcome!**

**December 20th, 7:00pm**
