

# Training Rules On YSB Agenda

P&D Staff Reports

The Yankton School Board will review a request to change the athletic training rules policy at its monthly meeting Monday at 5:30 p.m.

Last June, the board approved specific details and durations of a student's suspended calendar days and/or events on first, second and third offenses of training rule violations.

Currently, the training rules do not provide a specific number of contests that the individual would have to miss if his or her suspension was reduced to a certain number of consecutive days.

The board will discuss these details

and additions to clarify the plan of action for certain outcomes.

Also on the agenda for Monday, Chuck Turner, Buildings and Grounds Supervisor, will provide YSB will an overview and update on recent projects within the district, including the current projects of Crane Youngworth/Williams Field and the Comprehensive Facilities Study progress.

In addition to improvements being made in the school district, Yankton's housing improvements will also be discussed. Dan Specht will provide a presentation to the board regarding the city's housing developments.

Beadle Elementary school will be

highlighted at Monday's meeting with a special presentation by third grade teacher Lori LaFave, who will talk about the third grade highlights of the year. First grade teachers Lynn Becker and Linda Stevens will also review their class's community work program.

YSB member and business manager Jason Bietz, will provide the advisory committee's report regarding the YSD employee benefits and voluntary benefits roll-out.

The meeting will be held at the district administration building located at 2410 West City Limits Road.

## House Numbering Must Follow Rules

The City of Yankton reminds property owners that emergency personnel as well as delivery services depend on address numbers being displayed properly. When doing exterior maintenance chores this summer, be sure to check the visibility of your house numbering.

City Ordinance requires all buildings display numbers on the door or front of the structure that are a minimum of 3 inches in height and are visible and legible from the street immediately in front of the building. Numbering on mailboxes, in landscaping or on curbs is not sufficient.
