City Reminds Residents To Trim Street Trees For Safety

The City of Yankton is beginning its annual effort to remind property owners about trimming street trees in an effort to improve visibility and safety on city thoroughfares.

City ordinance requires that tree limbs hanging over city streets and alleys be trimmed to 12 feet and 10 feet over sidewalks. Property owners are responsible for trimming trees on their property or any trees growing in the boulevard next to their property according to city ordinance.

Each year the city makes free limb and trimming drop off available to citizens to help make tree trimming as painless as possible. This year tree limbs and trimmings can be dropped off at the Transfer Station located at 1200 West 23rd Street free of charge from Oct. 15-27 from 8 a.m.-3:45 p.m. Mondays through Saturdays

(excluding Wednesday evenings).

Brad Bies, code enforcement official for the City of Yankton, encourages citizens to take advantage of the free drop off times.

"We tried to time the drop off to coincide with trees going into their dormant period, but before too much snow or ice makes trimming impossible," Bies said.

He encourages property owners to visit cityofyankton.org for more information and for branch pruning techniques with photographic examples.

City staff will be sending post cards to property owners reminding them that low hanging branches need to be trimmed. Starting after the free drop-off period, they will inspection street trees on the principal arterials and snow routes and continue throughout the city. If trees remained untrimmed after contact-

ing the property owners, city staff will contract to have the trees trimmed. All costs associated with the abatement of low hanging branches will be assessed against the property as allowed by Yankton Code of Ordinances.

Tree trimming not only improves visibility for all drivers, but also helps keep the roads clear for emergency and other vehicles. Tree limbs hanging into the street can cause costly damage to larger equipment like school buses and snow plows.

Bies says tree trimming is par-

tially about driver safety on the road and partially about preventing property damage.

"Safety is our number one priority, but vehicles like school buses, fire trucks, and snow plows are community resources," he said. "I think we all have an interest in keeping maintenance costs down and those vehicles in good working order."

Clear roadways mean that school buses can run routes on time, and snow plows can efficiently clear streets once the snow starts falling.

Flooded Farm Land Applications Due November 1

Landowners who qualify for a reduction in assessed value on their flooded crop land must turn the needed paperwork in to their local assessor's office (Director of Equalization) by Nov. 1, 2012.

Land that can't be planted because it is flooded may be eligible for a reduction in assessed value. Applications must be submitted each year accompanied by current Farm Service Agency maps with flooded acres clearly marked. The paperwork must be dropped off at the Director of Equalization Office or post-marked by Nov. 1, 2012.

Lakes, dugouts and land in the Conservation Reserve Program (CRP) are not eligible.

Flooded farm land applications are available at the Director of Equalization Office. In Yankton County, that office is in the County Government Center, 121 West Third Street Suite 203, Yankton.
