WAGNER

From Page 1

an outrider, which is a single horse and rider alongside a team of horses to help keep them under control, with every team of two or more horses in public parades.

In an interview with the Press & Dakotan Tuesday, Kloucek said he was actually thinking about the legislation before the incident in Wagner.

"Russ Leonard (of Yankton) approached me three weeks ago about the issue. We started talking about it, and this event put the frosting on the cake," he said. "It made me aware that we need to do something, and to make people more conscious that mules and horses can get loose."

Earlier this summer in Iowa, a woman was killed during a parade after a horse got loose and ran her over. Leonard said that incident and the one in Wagner are proof that this legislation is needed.

"I hate to say that an accident has to happen to have proof, but it's a matter of common sense," he said. "I've been riding horses since I was 3 years old, so I know how they can react and that they can get irritated."

The mules became spooked when a dog came up to them and nipped one of them on the back of the leg.

Leonard said having an outrider look after the horses is just a matter of public safety.
