Kopetsky's Ace Named 'Coolest Hardware Store'

Recognized For Customized Service

Ace Hardware Corporation Living in South Dakota means enjoying the beautiful outdoor scenery and all that nature has to offer. That's why Kopetsky's Ace Hardware provides everything Yankton residents need for outdoor recreation, from bikes to kayaks. For its extreme dedication to helping customers enjoy the outdoors, the store has received a 2011 "Coolest Hardware Store" award from Ace Hardware Corporation. Of 4,500 locally-owned and operated Ace Hardware stores worldwide, Kopetsky's Ace Hardware is one of just four stores honored with the 2011 award.

"We want to provide the residents of our community with the equipment they need to enjoy our beautiful region," said Leo Kopet-

sky, owner of Kopetsky's Ace Hardware. "Instead of traveling close to a hundred miles to a larger city to get the necessary equipment for outdoor activities, the residents of Yankton can visit us and find everything they could ever want."

Kopetsky's store-within-a-store concept goes beyond home maintenance products to provide bikes, kayaks, skateboards, rollerblades, water sport equipment, outdoor apparel, fitness equipment and more. In addition, the store offers a wide selection of housewares and outdoor furniture that provide a unique shopping experience for Yankton locals. The Kopetskys have carved out a spot within the community as the go-to place for home and recreational needs. Best yet, if customers can't find what

they're looking for, the store can special order more than 60,000 items.

"We applaud Kopetsky's Ace Hardware's owners and staff for their commitment to helpful service in the community," said Kane Calamari, vice president of retail operations and new business at Ace Hardware Corp. "Our co-op business model lends itself to stores that can differentiate themselves based on the community they're in. We are proud that Kopetsky's has made a strong effort to provide its customers with products that fit their way of life."

Local award recipients were invited to take part in a three-day retail symposium in August for Ace's annual Platinum Conference, which brings together Ace's top-performing retailers from around the country. During the conference,

Kopetsky's Ace Hardware was honored with a trophy identifying the store as a "Coolest Hardware Store."

Across the board, Ace Hardware stores are known for their excellent customer satisfaction and helpfulness. In 2011, the J.D. Power and Associates 2011 U.S. Home Improvement Retailer Store Satisfaction StudySM again ranked Ace Hardware "Highest in Customer Satisfaction with Home Improvement Retail Stores, Five Years in a Row." For more details on the award, please visit: <http://ourcompany.acehardware.com/news/general/20110603.pdf>.

For more information about Kopetsky's Ace Hardware, with locations at 2404 Broadway and 103 W. 3rd Street, visit www.kopetskysace.com.

USD Recognizes Faculty With President's Research Awards

VERMILLION — The University of South Dakota recognized three faculty members for outstanding research. The researchers were awarded grants in three categories, including the President's Awards for Research Excellence for Early-Mid Career Faculty; President's Award for Research Excellence: Established Faculty and the President's Award for Research Innovation & Entrepreneurship. Recipients were selected through a highly competitive process with both university and external reviewers. The selections are a strong endorsement of each researcher's creativity and innovation, and an honor for the university to bestow.

This year, the researchers receiving the prestigious awards include:

- President's Award for Research Excellence: Early-Mid Career Faculty — Jacob Kerby, Ph.D., Assistant Professor in the Department of Biology
- President's Award for Research

Kerby

Garry

Kim

Excellence: Established Faculty — Patrick Garry, Ph.D., Professor in the School of Law

• President's Award for Research Innovation & Entrepreneurship — Young Ae Kim, Assistant Professor in the College of Fine Arts

In each category, candidates were reviewed based on past and current research aptitudes, including criteria such as publications, presentations, successful grantsmanship, serving as a peer reviewer, maintenance of an active graduate and/or undergraduate program, and

other competitive research awards. The Innovation & Entrepreneurship award further required a demonstrated innovative thinking or research findings that had promising commercial potential as well as a concept that had progressed beyond the theoretical stage to the applied stage.

"The talented applicants are indicative of the research culture here at USD," said Laura Jenki, Ph.D., vice president for research at USD. "Although difficult to choose just one recipient for each award, the faculty chosen are very deserving, and we are honored to present them with their respective awards."

Each award recipient receives a \$3,000 grant and a plaque. The President's Awards for Research Excellence for Early-Mid Career Faculty and Established Faculty, and the President's Award for Research Innovation & Entrepreneurship are awarded annually and open to USD research faculty in each of the three categories.
