

Your dreams are too big to fail.

At the root of every remarkable endeavor is a dream. At First Dakota National Bank, we help farmers, ranchers and agri-businesses accomplish dreams every day. Our Ag Finance team works hard to make you our first priority. It's understanding your needs and doing whatever we can to meet those needs.

First Dakota does this because agri-business has been in our blood since we first opened our doors over 140 years ago. In our 140 years we have focused on success for our bank and for our customers. It's important to us to remain financially balanced, locally owned and connected to the community, as that is necessary for a vital economy.

Our First Dakota ag products and services have you in mind, whether you need equipment financing, operating lines of credit, long term real estate or livestock financing. Stop in and talk to our Ag Finance team - we're the ag team you can count on. And we know your dreams are too big to fail - so let us help you account for your dreams.
