

*At Dakota Trailer Manufacturing, Inc.,
we are proud of our history and our heritage.*

Our pride is on the line for you... Dakota Pride.

Our History:

- Dakota Trailer Manufacturing, Inc. started as Hawkeye Manufacturing of SD.
- In May of 2005, Hawkeye became Dakota Trailer Manufacturing, Inc.
- In June of 2006, we added two new product lines, Super B and Conveyer Trailers.
- In May of 2007, Dakota Trailer Manufacturing, Inc. added the radiator division. Leasing an additional 12,000 square feet and purchasing new equipment.
- In July of 2009, Dakota Trailer Manufacturing, Inc. created its' first 48 foot aluminum trailer and in February of 2010, its' first 51 foot aluminum trailer.
- 2011 brought an expansion of the radiator division and also a new building on Gehl Drive for trailer expansion.

As you can see from the timeline above, growth over the last seven years has shown in the number of trailers, employees, dealer networks and plant expansions. We went from building approximately 108 trailers with 8 employees in 2005 to currently building over 400 trailers and boxes a year.

Dakota Trailer Manufacturing, Inc.'s plans for the future include building its current marketplace with dealers both in-state and abroad while still providing unmatched customer service and quality products. The new trailer manufacturing facility was built with a longer term plan of future expansion to support the growth of existing product as well as developing new product lines.

We continually strive to grow with new products, additional dealers and as always, excellent Customer Service!

Dakota Trailer Manufacturing, Inc...Dakota Pride!
