

Real Faces. Real Voices. Real Women in Healthcare.

Kelli Stallbaum

YMC Correspondence

Q: Why are you passionate about your job?

A: A lot of providers won't schedule an appointment without having copies of the records first. I like being able to help the patients get their records so they can get an appointment and start getting answers to their problems and on the road to recovery. It makes me feel good to know that someone somewhere is getting the answers they need because I just did my job.

Q: What changes have you seen since you started?

A: When I first started at YMC I was "the intern" with the small desk in the corner. In the five years since then, I have seen remodeling to accommodate for the new MRI machine and the biggest change has been the Electronic Health Record. It seems strange to go from all this paper everywhere to having everything right at your finger tips on the computer.

Q: Why do you love working for Yankton Medical Clinic?

A: I love being able to work with great people who I can call my friends. It is nice knowing that everyone in the clinic is working towards one goal of excellent patient care and I love being part of that team.

YANKTON MEDICAL CLINIC®, P.C.

So Much Care,
So Close to Home.®
