# Scientific Studies Fault Climate **Change For 2013 Wild Weather**

#### However, No Link Found With South Dakota Blizzard In October

BY SETH BORENSTEIN

AP Science Writer

WASHINGTON — Scientists looking at 16 cases of wild weather around the world last year see the fingerprints of man-made global warming on more than half of them.

Researchers found that climate change increased the odds of nine extremes: Heat waves in Australia, Europe, China, Japan and Korea, intense rain in parts of the United States and India, and severe droughts in California and New Zealand. The California drought, though, comes with an asterisk.

Scientists couldn't find a global warming link to an early South Dakota blizzard, freak storms in Germany and the Pyrenees, heavy rain in Colorado, southern and central Europe, and a cold British spring.

Organized by the U.S. National Oceanic and Atmospheric Administra-

tion, researchers on Monday published 22 studies on 2013 climate extremes in a special edition of the Bulletin of the American Meteorological Society.

"It's not ever a single factor that is responsible for the extremes that we see," said NOAA National Climatic Data Center director Tom Karl said. "Natural variability is always part of any extreme climate event.

For years, scientists said they could not attribute single weather events — like a drought, heat wave or storm — to man-made global warming. But with better computer models and new research, in some cases scientists can see how the odds of events increase — or not — because of climate change. Other researchers question the usefulness and accuracy of focusing on single extreme events.

The editors of the 108-page compilation of studies wrote that people and

animals tend to be more affected by extreme weather than changes in averages, so they pay attention to it. The public often connects extreme events to climate change, sometimes wrongly, so scientific analysis like this "can help inform the public's understanding of

our changing environment. The report seeks to find how much and how man-made warming has influenced the weather, said NOAA research meteorologist Martin Hoerling, an editor of the report.

The influence on Australia's hottest year in more than a century is glaring, the report's editors said.

"It's almost impossible" to explain Australia's hot 2013 without climate change, said Peter Stott of the United Kingdom's meteorology office, another report editor.

The most complicated issue is the California drought, the only extreme

that has continued into this year. Three teams studied that state's record drought in different ways. Two teams couldn't find a link to global warming and water and air temperatures, but the third from Stanford University looked at high pressure patterns in the air and found a connec-

A high pressure system parks over the northern Pacific during California's winters, which is normally when it gets rain. Higher atmospheric pressure usually means less storms and rain. The pressure was so strong last year that study lead author Daniel Swain called it "a ridiculously resilient ridge."

The Stanford team ran computer models with and without man-made warming from the burning of coal, oil and gas. The warming from greenhouse gases showed that the rainblocking ridge of high pressure was more than three times more likely with man-made factors than without, Swain

"There's definitely a climate change signal," Swain said.

### **Man Gets Life Term For Colo. Triple Slaying**

CANON CITY, Colo. (AP) — A sex offender from Indiana was sentenced Monday to three consecutive life terms for sexually assaulting a teenage girl and killing her mother, brother and sister

in southern Colorado. Jaacob Van Winkle won't be eligible for parole under the sentence handed down in Canon City under a deal he reached with prosecutors. He did not face the death penalty.

Van Winkle pleaded guilty in June to the March killings and assault. The Associated Press isn't identifying the victims to protect the identity of the 16-year-old girl who was sexually assaulted. Family members wept as they addressed the judge.

#### Action No. 2015-128

Member Fitzgerald introduced the following resolution and moved its adoption: RESOLVED that there be and there is levied upon the property subject to the jurisdiction of the School Board of Yankton School District 63-3, Yankton County, South Dakota, as per legal description filed in the office of the Yankton County Auditor, and to include all descriptions of real property which shall or have thereafter come under the jurisdiction of the School Board of Yankton School District 63-3, Yankton County, South Dakota, for the support of the School District's General Fund, Capital Outlay Fund, Special Edu-

cation Fund and Pension Fund subject to the control of the School Board of Yankton School District 63-3 for the school year 2014-2015 as per budgets adopted on September 8, 2014 for General Fund: Assessed Ag Valuation \$1.782 per \$1,000, Assessed Owner Occupied Valuation \$4.252 per \$1,000, Assessed Other Valuation (Non-Ag and Utilities) \$9.106 per \$1,000 (Est. \$6,390,090); for the Special Education Fund: Assessed Valuation \$1.478 per \$1,000 (est. \$1,740,218); for the Capital Outlay Fund: Assessed Valuation \$3.00 per \$1,000 (est. \$3,532,242); and for the Pension Fund: Assessed Valuation \$0.30 per \$1,000 (est.

\$353,224); and the Business Manager of the School Board is hereby directed to file with the County Auditor of Yankton County, South Dakota, necessary notice of tax budget and a copy of this resolu-

APPROPRIATIONS 5,735,235

Member Pietz seconded the move for adoption with the following voting Aye: All. Resolution adopted.

#### Action No. 2015-129

Dr. Tom Stanage, Executive Director Lewis and Clark Behavioral Health, presented an overview of a grant that was received for Functional Family Therapy and Systems of Care. No action was taken.

5,135,195

#### Action No. 2015-130

(600,040)

Moved by Pietz and seconded by Fitzgerald to approve changes to the Yankton School District Training Rules for Interscholastic Activities as presented with the following voting Aye: all. Motion carried.

#### Action No. 2015-131

Moved by Fitzgerald and seconded by Carda to approve group health plan premiums as follows for retirees: Employee Only - \$458.12, Employee+Spouse - \$867.22, Employee+Child(ren) - \$938.23, Family - \$1,405.97 and as follows for COBRA: Employee Only \$467.28, Employee+Spouse \$884.56, Employee+Child(ren) -\$956.99, Family - \$1,434.09 with the following voting Aye: all. Motion carried.

#### Action No. 2015-132

Moved by Pietz and seconded by Kieffer to move into executive session at 6:26pm pursuant to SDCL 1-25-2 (3) with the following voting Aye: all. Motion carried.

## Action No. 2015-133

Executive session ended at 7:12pm with Greeneway declaring the meeting was back in regular session.

#### Action No. 2015-134 Moved by Fitzgerald and seconded by Pietz to adjourn the meeting at 7:12 p.m., with the following vot-

ing Aye: All. Motion carried.

Kathy Greeneway, President School Board

Attest: Jason L. Bietz Business Manager Published once at the approximate cost of \$1,596.00.
