## Kelsey Buschkamp

RT (R) (M) YMC X-ray and Mammography

Q: What do you enjoy most about your job, and what do you enjoy most about working for the clinic?

A: I enjoy being with my co-workers; we are like a family. We all have the goal of giving our patients the best experience possible. We also have the goal of making sure each patient's physician has the best x-ray or scan possible. We treat our patients like we would want our family members to be treated.

Q: If you were encouraging someone else to come and work at the clinic what would you say?

A: Yankton Medical Clinic has a great work environment, and our employees are second to none! The Clinic does a good job of keeping up with technology, so that our patients are truly receiving the best care possible, and they are receiving it from qualified and caring staff.
