Yankton County Farmers Union Meeting

The Yankton County Farmers Union will hold its monthly meeting at 7 p.m. Thursday, Sept. 24, at Sunrise Apartments, 2015 Green St., Yankton.

Everyone is welcome to attend. For more information, contact Al Novak at 605-661-7667.

DEA Drug Take Back Day Set For Yankton

On Sept. 26 from 10 a.m.-2 p.m. the Yankton Police Department and the Drug Enforcement Administration (DEA) will give the public its 10th opportunity in five years to prevent pill abuse and theft by ridding their homes of potentially dangerous expired, unused and unwanted prescription drugs.

Bring your pills for disposal to the Yankton Police Department located at 410 Walnut, Yankton. (The DEA cannot accept liquids or needles or sharps, only pills or patches.) The service is free and anonymous, no questions asked.

Last September, Americans turned in 309 tons (more than 617,000 pounds) of prescription drugs at nearly 5,500 sites operated by the DEA and more than 4,000 of its state and local law enforcement partners. When those results are combined with what was collected in its eight previous Take Back events, DEA and its partners have taken in more than 4.8 million pounds — more than 2,400 tons — of pills.

This initiative addresses a vital public safety and health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse, and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. In addition, Americans are now advised that their usual methods for disposing of unused medicines — flushing them down the toilet or throwing them in the trash — both pose potential safety and health hazards.

For more information about the disposal of prescription drugs or about the Sept. 26 Take Back Day event, go to the DEA Office of Diversion Control site or contact the Yankton Police Department at 605-668-5210.

Fall Deadwood Fund Grant Applications

PIERRE — The South Dakota State Historical Society announces that the applications for the next round of the Deadwood Fund grant program are due Oct. 1 for work beginning Jan. 1, 2016.

The program is designed to encourage large-scale restoration or rehabilitation of historic properties by individuals, organizations or public agencies, according to Jay D. Vogt, director of the State Historical Society, whose historic preservation office administers the program.

Grants will be awarded in amounts ranging from \$1,000 to \$25,000. The grant amount must be matched on a dollar-for-dollar basis from nonfederal and nonstate sources. Nonprofit organizations will be allowed to use in-kind services for one-half of their match.

In 2014, \$121,921 was distributed among 11 projects, which resulted in a total public-private investment of \$447,799.

Funding for the program is from Deadwood gaming revenue earmarked by state law for historic preservation projects throughout the state and distributed by the State Historical Society.

The first round of 2016 applications will be due Feb. 1, 2016.

For more information on the South Dakota State Historical Society's Deadwood Fund grant program, contact the State Historic Preservation Office at the Cultural Heritage Center, 900 Governors Drive, Pierre, SD 57501-2217; telephone (605) 773-3458; e-mail shpo@state.sd.us.

Grant forms are available online at <http://history.sd.gov/Preservation/FundingOpps/FundingOpportunities.aspx>.

MidAmerican Energy Offers Tips For Protecting People And Property During Power Outages

DES MOINES, Iowa — Do you have a plan for safeguarding your family and home in the event of a power outage?

September is National Preparedness Month, and MidAmerican Energy Company encourages customers to be ready to act if they should experience a loss of electric or natural gas service. Outages can occur for a number of reasons, including severe weather, trees falling on power lines, accidental damage to gas or electric lines, animal contact or equipment failure, among others. Although MidAmerican Energy works diligently to prevent and limit the extent of any power outages, having a plan and communicating the plan to family members will help protect you and your home if the power goes out.

Here are some tips to help you prepare for the possibility of a power outage:

- Assemble an outage safety kit and store it in a place that's easy to locate in the dark. At a minimum, your kit should contain:
  - Flashlights with extra batteries
  - Battery-powered radio with extra batteries
  - A three-day supply of non-perishable food and water for every member of the household, including pets
  - Manual can opener
  - Blankets and warm clothing
  - First aid supplies
  - Extra cash, in case ATMs are down
  - Review outage safety with all members of your household.

Be sure everyone knows where the outage safety kit is stored. Children should know what to do in case they are home with a babysitter when the power goes out.

- If you have a landline telephone in your home, keep one corded phone that can be plugged directly into the phone jack if a power outage occurs. Cordless phones rely on electricity and will not work during an outage, whereas corded phones are powered through telephone lines.

- If someone in your household has a medical condition that requires special life-support equipment or medication that needs constant refrigeration, you will have to develop an alternate care plan in the event of a power outage. Call MidAmerican Energy's customer service department at 888-427-5632; our representative will be happy to send you a packet of information you can discuss with your physician and other family members.

- Add this number to your cell phone contacts: 800-799-4443. This is the number MidAmerican Energy customers should call to report power outages or downed power lines. Reporting an outage helps crews restore your power as quickly and safely as possible.

- Keep your vehicle's gas tank at least half-full at all times, since gas pumps may not work during a power outage. If you have an electric garage door opener, know how to operate the manual release lever so you can raise the door and get your vehicle out of the garage.
